Responding to Student Sexual Offending: Principal Checklist

Principals have primary responsibility for managing their school’s response to incidents, disclosures and suspicions of student sexual offending.

As outlined in the Minimum Standards for a Child Safe Environment, it is a requirement under the Ministerial Order No. 870 - Child Safe Standards - Managing the risk of child abuse in schools that the school leadership team support and empower staff to make a report by having clear policies and procedures about:

- who a staff member can seek advice from regarding if and who to report to
- what arrangements are in place to relieve staff while they are making or deciding to make a report as soon as practicable
- what strategies are in place to support staff through the process of making a report
- maintaining written records.
