Teacher Recruitment Difficulty Census

Frequently Asked Questions

Q. What is the Teacher Recruitment Difficulty Census?

As part of the February Census, all schools are required to complete the Teacher Recruitment Difficulty Census on the internet at www.eduweb.vic.gov.au/forms/school/trd

The Teacher Recruitment Difficulty Census has been conducted in each February Census since the year 2000. Census day for 2014 is Friday 28, February 2014.

The census asks schools whether they employed Teaching staff in the reference period for the current school year; whether they experienced difficulties recruiting teaching staff during the reference period and the subject areas that were difficult to recruit teachers for; the strategies employed to fill difficult vacancies; and any subjects schools were forced to drop for want of suitably qualified teachers.

This data will enable the Department to assess more accurately which localities and in which subject or specialist areas schools may be experiencing difficulties recruiting teachers. The Department uses the data in devising strategies to assist schools to overcome these problems.

The census takes approximately 10 minutes to complete. The census website can be accessed using either the School EduMail account or the Principal’s EduMail account.

The census is to be completed electronically and submitted by all schools by the closing date, Friday 7 March 2014.

Enquiries relating to this census can be directed to the School Census Hotline on (03) 9637 3225.

Q. I did not recruit any teachers for the year 2014. Do I need to complete the census?

Yes, all schools need to complete the census including those schools with a nil return.

Schools not recruiting any teachers will still need to answer questions 1, 2, 10, 11 and 12 and the Principal will need to endorse the census, before submitting it back to the Department of Education and Early Childhood Development.

Q. How do I access the site?

Using your internet browser, type in the web address www.eduweb.vic.gov.au/forms/school/trd

Each school will need to use either the School EduMail account or the Principal’s EduMail account to log on to the census site.

For more information on this topic, see “How to log on to the Website”.

4. You will need to log on as either your school with your School EduMail account or with the Principal’s EduMail account. (Not with any other account) If you are logging on with your school account, then type the User Name for your school account and the school account’s password.

The User Name for the school account will take the form of:

where:

XXXX = School number (e.g. Ararat Primary school number is 800 = 0800)
