Promoting COVID-19 vaccine access for students aged 12+

Communications pack

VOICES FOR VACCINE

VICTORIA State Government | Education and Training

Contents

Introduction

The Victorian Government has announced that all students aged 12 years and above in Victoria are eligible to book and receive their COVID-19 vaccine at a state vaccination clinic, a Commonwealth vaccination centre, or through a GP clinic, pharmacy or community health service.

The Victorian Government is encouraging everyone aged 12 and above to get vaccinated as soon as possible. The Victorian Government's aim is to provide an opportunity for all children aged 12 years and older to receive at least one vaccine dose by the end of the school year.

To help support this, the Victorian Government is launching a community pop-up vaccination program to be rolled out at approximately 70 school sites in priority postcodes to help vaccinate students, staff and the local community.

Vaccination is not mandatory but is strongly encouraged. Getting vaccinated is the best way to protect your school community from further outbreaks and the spread of COVID-19.

To help organisations such as yours understand and share important information about COVID-19 vaccine eligibility and safety, the Department of Education and Training has put together this communications toolkit.

This pack provides a range of materials for students aged 12 and above, as well as final year students. The pack includes social media content, a poster, web banners, newsletter copy and FAQs and other informational resources to help students and parents make informed decisions about their vaccination. It also provides handy links to various Commonwealth and State Government information resources about the vaccination program.

I encourage you to share and distribute these materials among your stakeholder communities to help encourage greater vaccine uptake. Thank you for your support and efforts.

The Hon James Merlino MP

Deputy Premier

Minister for Education

Minister for Mental Health

Helpful online resources

The below resources will always include the most accurate and up-to-date information about COVID-19 vaccine eligibility and safety. Reference and use these resources in your communications to school staff about the vaccine.

Resources

Information on the vaccine and booking an appointment

Students and parents can book and/or change a vaccination appointment at a vaccination centre through the coronavirus.vic.gov.au website or contact the Coronavirus hotline by phoning 1800 675 398. To find a vaccination centre and opening times, visit the coronavirus.vic.gov.au website.

You can get your COVID-19 vaccine at a state vaccination clinic, a Commonwealth vaccination centre, or through a GP clinic, pharmacy or community health service. You can book your appointment online or by calling the vaccine provider nearest to you.

For information about the COVID-19 vaccine rollout, visit coronavirus.vic.gov.au.

Suggested social media content

Here are some sample social media posts and tiles that can be used across your own social channels to help encourage awareness of COVID-19 vaccine eligibility and uptake.

Feel free to edit and personalise these posts to suit your own style. Please tag @DETVic and use #COVIDVaccine so we can like and share.

Suggested newsletter content

Please consider using the draft content below in your organisation's newsletter or preferred communication channel.

You can customise the content as required for your style and audiences.

Message for students aged 12 years and older

Dear students

As part of the COVID-19 vaccination roll-out, everyone aged 12 and older is now eligible to receive a COVID-19 vaccine.

Victorians aged 12 and older are eligible to receive their COVID-19 vaccine at a state vaccination centre, Commonwealth vaccination centre, participating GP clinics, pharmacies or community health services.

COVID-19 vaccines are an essential protection against serious illness.

Vaccination is not mandatory, but it is highly encouraged, except where your medical practitioner advises you otherwise.

You and your parents/guardians or carers should speak with your GP or pharmacist if you have health questions.

The Victorian Government's aim is to provide an opportunity for all students aged 12 years and over to receive at least one vaccine dose by the end of the school year.

Please discuss your vaccination with your parent/guardian or carer and with your teachers to plan your absence and minimise disruption to your learning if your vaccination appointment is during school hours.

Consent

You can book your own vaccination appointment and you may be able to consent to vaccination yourself if the health professional assesses you to be a mature minor. This means that the health professional assesses that you understand the information relevant to your decision to be vaccinated and the effect of that decision.

Your parent/carer can also complete a consent from for COVID-19 vaccination for you to bring to your appointment, or they can attend with you to provide consent in person.

How to book an appointment

You, your parent/guardian or carer can book or change a vaccination appointment at a state vaccination centre through the Victorian Government's COVID-19 vaccine online booking system. To find a state vaccination centre and opening times, visit Book your vaccine appointment.

You, your parent/guardian or carer can also book a vaccine appointment at a participating GP, pharmacy or community health service through the Vaccine Clinic Finder. You can book your appointment online or by calling the vaccine provider nearest to you.

For information on what to bring to a vaccine appointment, visit Checklist: before your COVID-19 vaccination.

The Victorian Government's coronavirus website has information about COVID-19 vaccines in 63 community languages at Translated information about COVID-19 vaccines.

School pop-up vaccination sites

You, your parent/guardian or carer may be eligible to visit a community pop-up vaccination site at a local school near you. This is a great opportunity for students, their families and the local community to get vaccinated at a familiar, accessible location. Schools hosting pop-up vaccination sites will provide details directly to students, as well as their parents/guardians and teachers.

What to bring

Bring these things, if you have them:

- a face mask

- any emails about your vaccination appointment (on your phone or printed)

- photo identification, if you have one, such as a passport or driver's licence

- a Medicare number or Individual Healthcare Identifier number.

For information on what to bring to a vaccine appointment please visit Checklist: before your COVID-19 vaccination.

More information

For more information about eligibility, visit coronavirus.vic.gov.au or use the Australian Government's Vaccine Clinic Finder.

For further assistance, contact:

- the Department of Health Coronavirus hotline: 1800 675 398

- the National coronavirus and COVID-19 vaccine helpline: 1800 020 080.

Please feel free to reach out to me if you have questions.

- West Melbourne - CoHealth West Melbourne
- Wodonga Vaccination Hub
- Wonthaggi Town Hall
- Wyndham Drive-Through Vaccination Clinic
- Wyndham Indoor Vaccination Centre - Eagle Stadium
- Yarram Medical Centre

FAQs

When is the COVID-19 vaccine becoming available to students?

All students 12 years and older are now eligible to receive the Pfizer COVID-19 vaccine and are encouraged to book as soon as possible.

The Victorian Government's aim is to provide an opportunity for all children aged 12 years and older to receive at least one vaccine dose by the end of the school year.

Students, parents/guardians and carers are encouraged to book their vaccine at a vaccination centre using the online booking system or by calling the Coronavirus Hotline on 1800 675 398. You can also get a COVID-19 vaccine at a state vaccination centre, a Commonwealth vaccination centre, or through a GP clinic, pharmacy or community health service.

Can students aged 12 to 15 consent to their own appointment?

Students aged 12 to 15 can book their own appointment and may be able to consent to vaccination themselves if the health professional assesses them to be a mature minor. This means that the health professional assesses that they understand the information relevant to this decision to be vaccinated and the effect of that decision.

Where a student is not considered to be a mature minor by the health professional, the health professional will seek consent from the student's parent/carer.

Parents/carers can complete a consent form for COVID-19 vaccination for their child to bring to their appointment, or parents/carers can attend with their child to provide consent in person.

What is the Department of Education and Training's role regarding the COVID-19 vaccine roll-out?

The Department of Education and Training (DET) is strongly encouraging all Victorians aged 12 and older to get vaccinated.

Schools, parents and students are encouraged to refer to coronavirus.vic.gov.au or the Australian Government Department of Health for further information about the vaccine rollout.

What do you need to bring to a vaccination appointment?

Bring these things, if you have them:

- a face mask
- any emails about your vaccination appointment (on your phone or printed)
- photo identification, if you have one, such as a passport or driver's licence
- a Medicare number or Individual Healthcare Identifier number

For information refer to Before you get vaccinated for COVID-19.

How do I find out where to go to get the vaccine?

Information on how to book a COVID-19 vaccine, and where vaccines are being administered, is available at: https://www.coronavirus.vic.gov.au/book-your-vaccine-appointment.

You can also get a COVID-19 vaccine at a state vaccination centre, a Commonwealth vaccination centre, or through a GP clinic, pharmacy or community health service.

You can book your appointment online or by calling the vaccine provider nearest to you.

If I want to get vaccinated, when should I get the COVID-19 vaccine?

You are encouraged to book your vaccination appointment as soon as possible.

While senior secondary students are encouraged to get their first dose before the GAT on 5 October, it is recommended that students do not schedule their vaccination appointment on the day of the GAT, or any exam or the day before an exam. This is to avoid feeling common side effects such as tiredness, headache, muscle pain, fever and chills and / or joint pain during your exam.

Which vaccine will I be receiving?

Students aged 12 and older will be offered the Pfizer vaccination at their state vaccination centre appointment.

Any secondary student who is 18 or older and who has already received one dose of their AstraZeneca vaccine should continue to proceed with their second dose of AstraZeneca. This is consistent with current health advice.

I can't find any available appointments nearby, what do I do?

Information on how to book a COVID-19 vaccine, and where vaccines are being administered, is available at: https://www.coronavirus.vic.gov.au/book-your-vaccine-appointment.

Students and parents may also call the Coronavirus Hotline on 1800 675 398. Please be patient as there may be wait times for appointments.

How should parents and teachers help support students for vaccination bookings?

Schools are asked to share information about eligibility and access to students, parents, guardians and carers.

Parents, guardians and teachers are encouraged to help support students and especially final year students to make their vaccination appointment for as soon as possible. Once an appointment has been made and if this is to occur during school hours, they should discuss and plan their expected absence and impact on learning requirements.

Schools should exercise maximum flexibility to enable all eligible students to book and then attend their vaccine appointments.

Students can book their own appointment and consent to vaccination themselves if the health professional assesses them to be a mature minor.

Can I make an appointment to be vaccinated during school hours?

Final year secondary students are asked to make an appointment as soon as possible.

Secondary students aged 12 and above are encouraged to make appointments at times that minimise disruption to their learning where possible.

Prior to their appointment students should discuss absence with teachers and parents/ guardians and carers.

Is the vaccine mandatory?

No. Vaccination for COVID-19 is voluntary for students aged 12 and older, however it is strongly encouraged. Vaccinations for final years students will assist in giving VCE students more certainty around sitting their end-of-year exams.

Can my school force me to be vaccinated?

No. The vaccines are voluntary for the general community, which includes students and you can choose if you want to get vaccinated against COVID-19. The more students who are vaccinated, the more protected our community and schools will be.

Can I take time off after the vaccine if I'm feeling unwell?

Students should discuss their health if they are feeling unwell with parents/ guardian and carers and plan absence from school with their teachers where appropriate.

VICTORIA State Government | Education and Training

The Victorian Department of Health advises that like all vaccinations, COVID-19 vaccines can have side effects. For more information on the potential side effects of COVID-19 vaccination, visit the Department of Health website.

Is the vaccine safe? I am concerned about the vaccine and its possible side effects.

Please refer to the Department of Health website for information on vaccine safety and possible side effects.

I have just had my flu vaccine, or am planning to have my flu vaccine, can I still have the COVID-19 vaccine?

It is recommended to leave a period of 7 days between receiving the flu vaccine and the COVID-19 vaccine. Vaccination planning can be discussed with your immunisation provider. For more information please refer to the Department of Health website.

My disability/medical condition affects my ability to physically access the vaccine. Are there other options?

Students should speak to their doctor if they have questions about the COVID-19 vaccine and their health.

Information on how to book a COVID-19 vaccine, and where vaccines are being administered, is available at the Department of Health website. You may also call the Coronavirus Hotline on 1800 675 398 to discuss any additional requirements you may have.

The Disability Liaison Officer (DLO) program aims to help more people with disability access health services, including:

- COVID-19 testing

- COVID-19 vaccination

- advice and prevention through linking people to other health supports.

Where can I find more information about the COVID-19 vaccine?

Information about COVID-19 vaccines can be found on the Australian Government Department of Health website and the coronavirus.vic.gov.au website.

You may also refer to Information for education staff receiving a COVID-19 vaccine | Coronavirus Victoria.
