

On Track

The On Track Survey 2013

Loddon Mallee Region

Region Report

This report provides information about the destinations of students exiting government schools in your region in 2012.

On Track follows up young people in the six months after they leave school to obtain data about their post school education, training and employment destinations.

Data obtained through the *On Track* survey are used to publish post school education, training and employment destinations celebrating the broad range of outcomes schools create for young people – not just university but studying at TAFE, undertaking apprenticeships and other forms of training or employment. Those not studying or in part-time work who request additional pathway advice and support are referred to Youth Connections providers for help with their career plans.

Since 2003, more than 415,000 Year 10, 11 and 12 school-leavers have participated in *On Track* Surveys.

The first *On Track* Longitudinal Surveys followed groups of 2003 and 2004 school leavers to gain a more detailed picture of their transitions over the four years after they leave school.

The second longitudinal study began in 2008 and followed a cohort of 2007 school leavers until 2011.

Annual *On Track* reports and the *On Track* Longitudinal Reports are available on the *On Track* website www.education.vic.gov.au/ontrack.

Data note

From year to year, schools may be assigned to another DEECD region and this may result in small discrepancies at some levels of disaggregation but not at system level.
