Transition Learning and Development Statement

The Education State
EARLY CHILDHOOD

OSHC (Early Learning Services) and the Taped-in Program (TIP) are two programs that help children make a smooth transition to school. They are designed to support children's social, emotional, and academic development.

OSHC programs are available to children aged 3 to 5 years, and TIP is for children aged 2 to 3 years. Both programs provide a welcoming and supportive environment where children can develop their skills and confidence.

For more information on OSHC and TIP, visit:
