

Kinder now starts at **3** because we know **2** years are better than **1**

The Victorian Government is investing in kindergarten programs for all three-year-olds—a nation-leading initiative that will benefit children across the state by 2022.

This means another year of learning, playing and making friends. It just adds up. The progressive roll-out begins in 2020.

Find out when your area will be eligible for funding by visiting education.vic.gov.au/3yokinder
