

The Early Years Learning Framework for Australia V2.0

This document summarises the updates to *Belonging, Being & Becoming: The Early Years Learning Framework for Australia (EYLF)*, provides an explanation for the changes, and maps the key changes from the EYLF to the Victorian Early Years Learning and Development Framework (VEYLDF).

Overview

The original EYLF was developed prior to (and formally introduced with) the commencement of the National Quality Framework (NQF) in 2012. The purpose of the update to the EYLF is to ensure it continues to reflect contemporary developments in practice and knowledge, while supporting all educators to promote the learning, development, and wellbeing of each child.

Many of the updates to the EYLF are in close alignment with concepts and approaches within the VEYLDF. The updates strengthen the connection between the EYLF V2.0 and the National Quality Standard in areas such as transitions, sustainability, theoretical approaches, critical reflection, the importance of Aboriginal and Torres Strait Islander ways of being, knowing and doing, and inclusion.

The changes include clarifications and expanded explanations across elements of the original EYLF and a smaller number of more substantial changes. Changes include the addition of three new principles and updated practices across all relevant aspects of the EYLF V2.0. Practices around the five Learning Outcomes have been updated, however the Outcomes themselves are still fit for purpose and remain as prescribed in the National Regulations.

How to use this document

Providers of funded kindergarten programs are required to use the VEYLDF, as the approved learning and development framework for Victoria, to develop and implement educational programs in Three and Four-Year-Old Kindergarten. Early childhood professionals should use, and engage deeply with, the VEYLDF Practice Principles and the Learning and Development Outcomes, with a strong focus on ethics, children's rights, and supporting children's transitions.

This document maps the EYLF V2.0 changes to the VEYLDF, to highlight where those changes may already be implemented at your service.

| Original EYLF | Key updates | Rationale for the updates ¹ | Difference to VEYLDF comment |
|--|--|--|--|
| Introduction | | | |
| | <ul style="list-style-type: none"> Introduction updated to reflect that this is V2.0 of the original EYLF and incorporate elements of the Terms of Reference that guided the update process and are now reflected across the learning framework. | | |
| A vision for children's learning | | | |
| All children experience learning that is engaging and builds success for life. | <ul style="list-style-type: none"> Vision expanded to emphasise all children as successful life-long learners and as active and informed community members with knowledge of Aboriginal and Torres Strait Islander perspectives. Content expanded to recognise the diversity of children, their families and communities, and the opportunities diversity brings to know more about the world. | <ul style="list-style-type: none"> Recognises the role of ECEC in advancing children's engagement in reconciliation, respect, and recognition of the world's oldest continuous living culture. Aligns with the Alice Springs (Mparntwe) Education Declaration and the Australian Curriculum supporting Aboriginal and Torres Strait Islander histories and cultures. | <ul style="list-style-type: none"> At its core, the VEYLDF recognises and respects Aboriginal cultures and their unique place in the heritage and future of Victoria. The VEYLDF notes that when children experience acknowledgement of and respect for diversity, their sense of identity becomes stronger. |
| <i>Belonging</i> | <ul style="list-style-type: none"> <i>Belonging</i> expanded to include local and global communities. | <ul style="list-style-type: none"> Recognises contemporary understandings of childhood as children are connected beyond their local community by digital means. | <ul style="list-style-type: none"> The VEYLDF incorporates topics related to belonging throughout the Learning Outcome descriptions. In Outcome 1, the VEYLDF acknowledges the notion of belonging to global communities as important for exploring different identities and points of view. |
| <i>Being</i> | <ul style="list-style-type: none"> <i>Being</i> expanded to add in the significance of the past as well as the present, and development of identity. | <ul style="list-style-type: none"> Acknowledges that identity is influenced by past and present experiences. | <ul style="list-style-type: none"> The VEYLDF incorporates topics related to being throughout the Learning Outcome descriptions. |

¹ Original EYLF, Key updates, and Rationale for the updates information taken from Belonging, Being & Becoming – What's changed? (ACECQA, 2023)

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|----------------------------------|--|--|--|
| <i>Becoming</i> | <ul style="list-style-type: none"> Becoming expanded to include the addition of dispositions, and collaborations to enhance connections, capabilities and the participation of children. | <ul style="list-style-type: none"> Dispositions and collaborations with others are an important part of becoming an engaged learner, a contributing member of social networks and an active citizen. | <ul style="list-style-type: none"> The VEYLDF incorporates topics related to becoming throughout the Learning Outcome descriptions. |
| Elements of the framework | | | |
| | <ul style="list-style-type: none"> Content updated to: <ul style="list-style-type: none"> include descriptions of relational and place-based pedagogies strengthen the importance of children's wellbeing highlight the importance of curriculum decision-making as a continuous cycle of planning, assessment, evaluation and critical reflection undertaken in partnership with children, families, colleagues and other professionals. | <ul style="list-style-type: none"> Educators know that children's learning, development, and wellbeing takes place in a nest of relationships and that context is important when developing child centred curriculum. Children's learning and development is affected by wellbeing. Educator's effective curriculum decision-making is a continuous cycle where planning, implementation and assessment of learning and evaluation of professional practice with critical reflection is key. Within this cycle, educators gather information from children and their families that assist in strengthening partnerships. Children and families also have a role in providing feedback used to develop quality curriculum. | <ul style="list-style-type: none"> The intent behind place-based and relational pedagogies is found throughout VEYLDF Learning Outcomes 1 and 2 (Identity and Community). Identity and Community may involve supporting children to feel comfortable within local, social and cultural practices – which is a place-based approach. This content update aligns with the VEYLDF Practice Principles Partnerships with families, respectful relationships and responsive engagement and equity and diversity. The Bronfenbrenner ecological model of the child underpins the VEYLDF. Children's wellbeing is an integral part of all outcomes and is explicit in Outcome 3: Children have a strong sense of wellbeing. Continuous cycle of planning, assessment, evaluation and critical reflection is underpinned by the Practice Principles – Assessment for learning and development, and Reflective Practice. |

|---|--|---|---|
| Children's learning | | | |
| | <ul style="list-style-type: none"> • Content on play-based learning expanded to provide greater clarity on how play-based learning connects to and amplifies children's learning, development, and wellbeing. • This section has been strengthened through the inclusion of clearer and contemporary descriptions of play-based learning in the early years, recognising play as a context and process for learning and teaching. • Concepts of resilience, growth mindset and multimodal play have been added. | <ul style="list-style-type: none"> • The development of resilience and a growth mindset in learning are described in ways that assist educators with contemporary understandings of the amplification of children's learning, development, and wellbeing. • Multimodal play is also used as a contemporary way to describe children's play. | <ul style="list-style-type: none"> • The VEYLDF Practice Principle Integrated teaching and learning approaches acknowledges that play is essential to stimulate and integrate a wide range of children's intellectual, physical, social and creative abilities. • Aligns with the VEYLDF Practice Principles. • Partnerships with families, respectful relationships and responsive engagement and equity and diversity. • The Bronfenbrenner ecological model of the child as an underpinning of the framework. • Children's wellbeing is an integral part of all outcomes and is explicit in Outcome 3: Children have a strong sense of wellbeing. • Continuous cycle of planning, assessment, evaluation and critical reflection is underpinned by the Practice Principles – Assessment for learning and development, and Reflective Practice. |
| Elements of the Early Years Learning Framework | | | |
| | <ul style="list-style-type: none"> • Diagram updated to reflect the new Principles, Practices and Outcomes. | <ul style="list-style-type: none"> • This reflects the changes made in the framework. | <ul style="list-style-type: none"> • The new diagram reflects the new structure of the EYLF V2.0. The VEYLDF shares the same Learning Outcomes and similar Practices and Principles. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|---|---|--|--|
| Early Childhood Pedagogy | | | |
| <p>Strengthening the link between the vision and the planning cycle</p> | <ul style="list-style-type: none"> • Planning cycle updated to include detail on planning for learning that addresses the importance of, and explains the continuous cycle of: <ul style="list-style-type: none"> ○ Observe / Listen / Collect ○ Assess / Analyse / Interpret Learning ○ Plan / Design ○ Implement / Enact ○ Evaluate / Critically Reflect | <ul style="list-style-type: none"> • Planning for learning is a continuous cycle that involves planning, implementation, critical reflection, assessment and evaluation. High quality programs have a strategic and reflective approach to planning for learning. The updated planning cycle demonstrates the importance of planning in the EYLF to better inform and support practice and the assessment of children’s learning, development, and wellbeing in ECEC. | <ul style="list-style-type: none"> • The VEYLDF Practice Principle Reflective Practice includes the Early Years Planning Cycle, which outlines the process early childhood professionals use in partnership with children, families, kinship members and other professionals to questions and analyse, act and reflect on evidence they have collected. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|---|---|---|---|
| Principles | | | |
| <p>Secure, respectful and reciprocal relationships Partnerships High expectations and equity Respect for diversity Ongoing learning and reflective practice</p> | <ul style="list-style-type: none"> Expanded to include three new principles, reordered and numbering removed to clarify that they are not listed in order of priority. The Principles are: <ul style="list-style-type: none"> Secure, respectful and reciprocal relationships Partnerships Respect for diversity Aboriginal and Torres Strait Islander perspectives – NEW Equity, inclusion and high expectations – RENAMED Sustainability – NEW Critical reflection and ongoing professional learning – RENAMED Collaborative leadership and teamwork – NEW | <ul style="list-style-type: none"> The eight principles reflect contemporary theories, perspectives and research evidence concerning children’s learning, development, and wellbeing and early childhood pedagogy. | <ul style="list-style-type: none"> The EYLF V2.0 includes the addition of three new Principles. The intent behind each of these principles is represented throughout the VEYLDF Learning Outcome Descriptions and Practice Principles: <ul style="list-style-type: none"> Aboriginal and Torres Strait Islander perspectives – Aboriginal ways of knowing and being are embedded throughout the VEYLDF Sustainability – aligned with Learning Outcome 2 – Children are connected with and contribute to their world. Collaborative leadership and teamwork – aligned with the VEYLDF Practice Principle Reflective practice. |
| <p>Replace with Secure, respectful and reciprocal relationships</p> | <ul style="list-style-type: none"> Principle updated to include children’s experiences of positive caring relationships and interactions with educators and their peers and the role that plays in healthy brain development. Content updated to include relational and place-based pedagogies, including the importance of valuing rituals and routines, and educators assisting children to support their own and others’ wellbeing. | <ul style="list-style-type: none"> Including children’s connections with educators and their peers highlights the importance of relationships in ECEC and underpins learning and teaching practices. The importance of relationships between educators and children is a key theme of the EYLF. Educators know that children’s learning, development, and wellbeing takes place in a nest of relationships and that context is important when developing child centred curriculum and both are continuing themes throughout the document. | <ul style="list-style-type: none"> Incorporated in VEYLDF in the following Practice Principles: <ul style="list-style-type: none"> High expectations Partnerships with families Respectful relationships and responsive engagements |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|---------------|--|--|--|
| Partnerships | <ul style="list-style-type: none"> Principle strengthened to include working with diverse families, developing culturally safe spaces, and strengthening connections with child and family professionals and school communities. Partnerships broadened to include children, other professionals, communities, including schools. Content expanded to include: <ul style="list-style-type: none"> cultural safety educators actively encouraging children and families in decision making forming ethical partnerships assisting children and families with e-safety and use of media, popular culture and digital technologies trauma-informed practice and engaging with other professionals to enhance the learning of children affected by trauma | <ul style="list-style-type: none"> Acknowledging the fundamental importance of strong and effective partnerships in ECEC, this Principle has been strengthened to include working with diverse families, developing culturally safe spaces, and strengthening connections with child and family professionals and school communities. Cultural safety is key to fostering partnerships and relationships with families. The role of children and families in decision making is recognised. Ethical partnerships are a central understanding in ECEC. New understandings about the role of digital technologies, the use of media and popular culture and the role of the educator in assisting children and families with knowledge about this and e-safety is strengthened throughout the framework. Trauma informed practice is important to understand in strengthening partnerships as well as reinforcing relational pedagogy. | <ul style="list-style-type: none"> The VEYLDF acknowledges creating cultural and spiritually safe spaces and working with diverse families within equity and diversity, high expectations, partnerships with families and respectful relationships. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|-----------------------|---|---|---|
| Respect for diversity | <ul style="list-style-type: none"> Principle expanded to provide clearer definition of respecting diversity to include valuing traditional practices, heritage and ancestral knowledge within the curriculum. For educators to build culturally safe and secure environments for all children and their families that acknowledge the histories, cultures, language, traditions, religions, spiritual beliefs, child rearing practices and lifestyle choices of families. | <ul style="list-style-type: none"> Respect for diversity has contemporary understandings of valuing traditional practices, heritage and ancestral knowledge in the curriculum. The concept of cultural safety is threaded throughout the framework. Culturally safe and secure environments for children and families acknowledge the histories, cultures, language, traditions, religions, spiritual beliefs, child rearing practices and lifestyle choices of families. | <ul style="list-style-type: none"> The VEYLDF inherently acknowledges the role of family, culture, and experience in shaping children, through Bronfenbrenner's Ecological Model (1979). The Practice Principles promote personal and collective acknowledgement of each child's identity, culture, and spirit. The role of language and culture is explicitly referenced in VEYLDF Outcome 1: Children have a strong sense of identity – in discussion of the importance of acquisition and maintenance of first or home languages as having a significant and continuing role in the construction of identity. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|---|---|---|--|
| <p>Aboriginal and Torres Strait Islander perspectives</p> | <ul style="list-style-type: none"> New principle | <ul style="list-style-type: none"> Strengthening Aboriginal and Torres Strait Islander knowledges, cultures, and perspectives throughout the EYLF is a priority, supported by the Terms of Reference, reflects the Alice Springs (Mparntwe) Education Declaration and aligns with the Australian Curriculum V9.0. The Alice Springs Agreement (Mparntwe) Education Declaration (Education Council, 2019, p.5) describes the importance of learning that builds “on and includes local, regional and national cultural knowledge and experience of Aboriginal and Torres Strait Islander peoples and work in partnership with local communities”. Furthermore, children become active and informed members of the community who “come to understand, acknowledge and celebrate the diversity and richness of Aboriginal and Torres Strait Islander histories and cultures” (Education Council, 2019, p.8). This understanding is supported by a guiding principle of the NQF. | <ul style="list-style-type: none"> The VEYLDF recognizes and respects Aboriginal cultures and their unique place in the heritage and future of Victoria. The VEYLDF embeds Aboriginal ways of knowing and being throughout the whole document. The VEYLDF contains three elements – Practice Principles, Outcomes, and Transition. These three elements are represented visually using artwork by Annette Sax (Taungurung) and with an accompanying cultural story written by Dr Sue Lopez Atkinson. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|------------------------------|---|--|---|
| High expectations and equity | <ul style="list-style-type: none"> Principle renamed Equity, inclusion and high expectations | <ul style="list-style-type: none"> The expansion of this Principle includes a focus on inclusion, recognising that all children have the right to participate in quality and inclusive early childhood settings, regardless of their circumstances, strengths, gender, capabilities or diverse ways of doing and being. There has been considerable growth in research and understanding relating to inclusive learning environments and practices for children. Inclusion makes visible and celebrates the diversity of children's lives. The revision draws on new knowledge and evidence-based practice to strengthen inclusion in ECEC settings, whereby educators enact inclusion for all. | <ul style="list-style-type: none"> The VEYLDF contains two related Practice Principles: Equity and Diversity, and High expectations for every child. The VEYLDF broadly sets a cohesive inclusion agenda, drawing upon the United Nations Convention on the Rights of Person with Disabilities and the United Nations Convention on the Rights of the Child (1989). |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|--|---|---|--|
| Sustainability | <ul style="list-style-type: none"> New principle | <ul style="list-style-type: none"> Teaching children about the natural environment and how to take care of it is central to education for sustainability but is only one part of education for sustainability. This new principle draws on contemporary research and recognises UNESCO's definition that describes three dimensions of sustainability – environmental, social and economic sustainability – and the connections between these dimensions. It recognises children's interest in supporting a fair and sustainable world and their role as active and informed citizens. The expanded approach aligns with sustainability in the Australian Curriculum V9.0. | <ul style="list-style-type: none"> Sustainability – aligned with Learning Outcome 2 – Children are connected with and contribute to their world. The VEYLDF acknowledges that early childhood professionals support all children to develop a sense of place, identity and a connection to the land and the natural world. |
| Ongoing learning and reflective practice | <ul style="list-style-type: none"> Principle renamed <i>Critical reflection and ongoing professional learning</i> Content updated to provide a clearer definition and distinction between reflection and critical reflection. Critical reflection is described to demonstrate the process undertaken with other colleagues, children, and families. Additional prompts have been added to support critical reflection in everyday practice. | <ul style="list-style-type: none"> The expansion of this principle strengthens critical reflection as a part of everyday professional practice. This principle focuses on critical reflection, as a critical practice to drive continuous quality improvement in ECEC. | <ul style="list-style-type: none"> The VEYLDF Practice Principle <i>Reflective practice</i> acknowledges that reflecting on and critically evaluation practice is a core part of all early childhood professionals' work. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|---------------------------------------|--|--|--|
| | <ul style="list-style-type: none"> Included educators as professionals who are committed to life-long learning and the role of professional learning to support critical reflection and practice change. The commitment educators make to life-long learning to support critical reflection and improve practice and the role of professional learning is described. | | |
| Collaborative leadership and teamwork | <ul style="list-style-type: none"> New principle | <ul style="list-style-type: none"> This principle focuses on leadership and teamwork as a collective professional activity of all educators to improve the quality of educational programs and practices and outcomes for children. The importance of effective leadership in ECEC is well documented including the relationship between effective leadership and outcomes for children. This goes beyond formal leadership positions, to include leadership principles and practices enacted by children and educators. | <ul style="list-style-type: none"> The VEYLDF <i>Partnerships with professionals</i> Practice Principle aligns broadly with this new principle. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|---|---|--|---|
| Practices | | | |
| <p>Holistic approaches Responsiveness to children Learning through play Intentional teaching Learning environments Cultural competence Continuity of learning and transitions Assessment for learning</p> | <ul style="list-style-type: none"> • Practices reduced from eight to seven and some renamed: <ul style="list-style-type: none"> ○ Holistic, integrated and interconnected approaches – RENAMED ○ Responsiveness to children ○ Play-based learning and intentionality – (Learning through play and intentional teaching) – COMBINED & RENAMED ○ Learning Environments ○ Cultural responsiveness – RENAMED ○ Continuity and transitions | <ul style="list-style-type: none"> • Addressed below | |
| <p>Holistic approaches</p> | <ul style="list-style-type: none"> • Practice renamed Holistic, integrated and interconnected approaches • Clarified the meaning of holistic approaches to learning and teaching, including the connection between the vision, principles, practices, and learning outcomes in both Frameworks. | <ul style="list-style-type: none"> • Renaming the practice to Holistic, integrated and interconnected approaches reinforces holistic approaches to teaching and learning and the integrated nature of the EYLF, and the importance of educators drawing on all elements of the EYLF (Vision, Principles, Practices and Learning Outcomes) to inform their pedagogy and professional practice. | <ul style="list-style-type: none"> • The VEYLDF Practice Principles form a holistic approach to guide early childhood professionals to work together with families in support of their children, embracing and responding to the cultural and linguistic diversity of the Victorian community and diverse approaches to child rearing. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|-----------------------------------|--|--|---|
| <p>Responsiveness to children</p> | <ul style="list-style-type: none"> • Content under this Principle updated to: <ul style="list-style-type: none"> ○ provide clearer definition of attuning to and responding to children’s strengths, interests, capabilities and curiosity including responding to children’s expertise, cultural traditions and ways of knowing spoken through the multiple languages or dialects ○ acknowledge educator responsiveness to children’s funds of knowledge as an important basis for curriculum decision- making. | <ul style="list-style-type: none"> • Being attuned to children allows educators to be responsive to: <ul style="list-style-type: none"> ○ children’s strengths, interests, capabilities and curiosities ○ respond to children’s expertise ○ respond to children’s cultural traditions and ways of knowing spoken through the multiple languages or dialects of some children • Knowing about the knowledge and experiences children bring with them (their funds of knowledge) assists in creating child centred and relevant curriculum and optimising children’s learning, development, and wellbeing. | <ul style="list-style-type: none"> • The VEYLDF acknowledges that all adults are attuned to subtle communication and cues from birth - relationships that nurture, regulate and provide protective factors to support children’s wellbeing, resilience and learning capabilities. • The VEYLDF acknowledges that every child will take a unique path toward achieving the five Outcomes and seeks to recognize all children as rights holders and full members of society, capable of participating in their social worlds through their relationships with others. • The VEYLDF includes a set of Illustrative Maps developed for early childhood professionals to inform curriculum planning and pedagogy with young children, that link the five outcomes with the first three levels of the Victorian Curriculum F-10. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|-----------------------|--|--|---|
| Learning through play | <ul style="list-style-type: none"> Practice renamed Play-based learning and intentionality The Practices of Learning through play and Intentional teaching have been combined to strengthen the connection between play-based learning and intentionality, promoting reflection on educator and child intentionality. Examples of educators acting with intentionality in play-based learning expanded including the integration of popular culture, media and digital technologies adding to children’s multimodal play. The idea of multimodal play and the integration of popular culture, media and digital technologies has been described. | <ul style="list-style-type: none"> Renaming the practice from Learning through play to Play- based learning and intentionality and combining the practices of Learning through play and Intentional teaching reflects contemporary understandings of both child and educator intentionality and their roles in play, teaching, and learning. Intentionality is described for both adult and child. The updated practice clarifies the expectation that educators are intentional in all aspects of their professional practice. A clear description of play-based learning as a pedagogical approach and practice has been added in ways to create a shared understanding amongst educators. | <ul style="list-style-type: none"> The VEYLDF acknowledges the role of digital technologies and multimedia resources to support children to communicate, play and learn; and defines information and communications technology (ICT), and technologies, in the glossary. |
| Intentional teaching | <ul style="list-style-type: none"> Practice has been renamed Play-based learning and intentionality. The Practices of Learning through play and Intentional teaching have been combined to strengthen the connection between play-based learning and intentionality. Intentionality has been described in play-based learning. | <ul style="list-style-type: none"> The updated practice draws on contemporary research to outline the intentional role of the educator in play-based learning. The practice expands on strategies educators may use to engage, support and expand children’s thinking and learning through play. | <ul style="list-style-type: none"> The <i>Integrated teaching and learning approaches</i> Practice Principle acknowledges that play is central to its concept, and defines adult-led learning, child-directed play and learning, and guided play and learning – with the concept of intentional teaching represented through the Triple Helix. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|-----------------------|--|---|---|
| Learning environments | <ul style="list-style-type: none"> Practice expanded to provide a clearer definition of indoor and outdoor learning environments. Descriptions of learning environments including physical, temporal, social and trauma-informed elements. Environments are responsive to the strengths, culture, language, interests and capabilities of each child and reflect aspects of the local community. For Aboriginal and Torres Strait Islander families these contributions can assist in building an intercultural space where both western and traditional Aboriginal and Torres Strait Islander knowledges are shared. Opportunities for children to learn on Country recognised. | <ul style="list-style-type: none"> The elements of learning environments have been included as educators are aware and use the physical, temporal (how time is used), social and intellectual elements in preparing the learning environment. Again the theme of culturally safe environments is illustrated where environments are responsive to the strengths, culture, language, interests and capabilities of each child and reflect aspects of the local community. Added to this are the contributions that Aboriginal and Torres Strait Islander families can assist in building an intercultural space where both western and traditional Aboriginal and Torres Strait Islander knowledges are shared. Opportunities for children to learn on Country is recognised. | <ul style="list-style-type: none"> The VEYLDF notes that early childhood professionals provide opportunities and challenges that afford children the space, time, voice, audience and capacity to make a difference in their environment. The VEYLDF acknowledges that by using integrated teaching and learning approaches, early childhood professionals create environments that provide children with socially mediated learning opportunities with a range of adults and peers. The VEYLDF also describes effective transitions and the importance of supporting children to manage change and build resilience to move between contexts successfully. The VEYLDF acknowledges the role of safe and stimulating learning environments. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|--|---|--|--|
| Cultural competence | <ul style="list-style-type: none"> Practice renamed Cultural responsiveness Content updated to include: <ul style="list-style-type: none"> a description of cultural responsiveness and what it encompasses examples of culturally responsive educators educators working with children, families and members of the community to build culturally safe and secure environments. | <ul style="list-style-type: none"> Renaming the practice to Cultural responsiveness reflects a deeper understanding of all cultures and diversity and a commitment to embedding Aboriginal and Torres Strait Islander perspectives in all areas of professional practice. Research and thinking in this area asks educators to move beyond cultural competence to cultural responsiveness. Cultural responsiveness is characterised by respect for cultures that are not your own, ongoing self-reflection, continued learning and a commitment to improving professional practice in this area. | <ul style="list-style-type: none"> The VEYLDF does not explicitly reference cultural responsiveness or cultural competency of educators, but does cover these concepts implicitly as it references the cultural needs of families and children and acknowledges the importance of consulting with families and children in order to support them to connect and contribute to their world. |
| Continuity of learning and transitions | <ul style="list-style-type: none"> Principle expanded to provide clearer definition of children’s individual, family and community ways of being, belonging and becoming, often called funds of knowledge. Transitions are described as occurring everyday between routines or settings as well as bigger transitions to early childhood settings or school. Discussion of continuity strengthened to promote greater continuity to assist positive transitions between home and the early childhood setting and school. | <ul style="list-style-type: none"> Knowing and building on children’s funds of knowledge helps them to feel secure, confident and connected to familiar people, places, events and understandings. Children’s identities are seen as changing as they move from one setting to another. Educators from early childhood settings and schools commit to sharing information about each child’s knowledge and skills so learning can build on foundations of earlier learning. Greater continuity across settings assists positive transitions. | <ul style="list-style-type: none"> The VEYLDF does not explicitly reference “children’s funds of knowledge” although the importance of being responsive to children’s experiences and understandings is inherently relevant to VEYLDF Practice Principles: <ul style="list-style-type: none"> <i>High expectations for every child</i> <i>Respectful relationships and responsive engagement</i> <i>Assessment for learning and development</i> <i>Integrated teaching and learning approaches</i> Learning Outcome Descriptions 1 and 2 The VEYLDF discusses ‘effective transition’ – achieved when the child and family have a sense of belonging and acceptance in the new context. |

| Original EYLF | Key updates | Rationale for the updates | Difference to VEYLDF comment |
|-------------------------|---|--|--|
| | <ul style="list-style-type: none"> Using transitions and continuity to include understandings of how educators may use children and their family's funds of knowledge to strengthen this practice. It also describes children's changing identities entering a new setting and the building of new ways of knowing, being and doing in a new setting while establishing a sense of belonging. | <ul style="list-style-type: none"> This practice also includes the understanding of how professionals work together in the best interests of children by sharing knowledge so that transitions are supported and strengthened. | |
| Assessment for learning | <ul style="list-style-type: none"> Practice renamed <i>Assessment and evaluation for learning, development, and wellbeing</i>. The terms assessment and evaluation have been clearly defined, so the difference between the two is more apparent. The section on Assessment has been strengthened including describing three broad types of assessment: <ul style="list-style-type: none"> <i>Assessment for children's learning</i>, also known as formative assessment <i>Assessment of children's learning</i>, also known as summative assessment <i>Assessment as learning</i> to facilitate children's awareness, contributions and appreciation of their own learning The section on Evaluation revised to emphasise the role of educators' critical reflections and family feedback to improve aspects of practice and includes prompts to support educators to engage in assessment and evaluation of learning and teaching. | <ul style="list-style-type: none"> Reflects contemporary understandings of authentic and meaningful assessment approaches including children's role in assessing their own learning. Description of assessment strategies reflects contemporary understandings that they are inclusive, culturally and linguistically relevant, responsive to the physical, emotional, social, intellectual and regulatory capabilities of each child and acknowledge each child's abilities, strengths and competencies. In addition, it is important to use assessment strategies that promote the child's voice and contribution. | <ul style="list-style-type: none"> The related VEYLDF Practice Principle – Assessment for learning and development – acknowledges the value of assessment to create a holistic picture of each child's knowledge, understandings, skills, and capabilities and highlights that self-assessment can be a key motivator for each child. |

| The Early Years Learning Framework Planning Cycle | | | |
| | <ul style="list-style-type: none"> • A new diagram The Early Years Learning Framework Planning Cycle has been added after Practices. • Steps have been described both in text and diagrammatically to assist educators in using the cycle. • The steps and sequences educators follow are described in a cyclic diagram under the following headings: <ul style="list-style-type: none"> ○ Observe / Listen / Collect ○ Assess / Analyse / Interpret Learning ○ Plan / Design ○ Implement / Enact ○ Evaluate / Critically Reflect | <ul style="list-style-type: none"> • The Early Years Learning Framework Planning Cycle links to the Learning Outcomes and describes the processes educators follow and how they make decisions about curriculum planning, in the moment, throughout the day and over time. | <ul style="list-style-type: none"> • The Early Years Planning Cycle (EYPC) describes the planning cycle as Collect information > Question/Analyse > Plan > Act/Do > Reflect/review. • These components of the EYPC broadly align with the new EYLF Planning Cycle |

| Learning Outcomes | | | |
| <p>General</p> <ul style="list-style-type: none"> Children have a strong sense of identity Children are connected with and contribute to their world Children have a strong sense of wellbeing Children are confident and involved learners Children are effective communicators | <ul style="list-style-type: none"> Content expanded to include the <i>Disability Discrimination Act and the Racial Discrimination Act</i> and the notion of making reasonable adjustments for all Learning Outcomes to ensure learning engagement for all children. Inclusion of examples across the Learning Outcomes to integrate new principles and practices in the work of educators and in children's wellbeing, learning, and development e.g. Aboriginal and Torres Strait Islanders cultures and ways of knowing are made more explicit in all of the Learning Outcomes to reflect family/community connections, connection to country, kinship systems, telling of stories (oral history), spirituality, and connecting with the extended family. Provided more guidance and examples of what play and learning could look like and how educators could promote wellbeing, learning, and development to better reflect difference and diversity including: <ul style="list-style-type: none"> age groupings of children's different abilities social (learning with others) as well as individual learning diverse cultures and families Descriptive examples added to all the Learning Outcomes. | <ul style="list-style-type: none"> Detail and delineation of examples to reflect children's diverse capabilities and educators' promotion of learning, development, and wellbeing. New or refined examples of the new and updated principles and practices have been added. Opportunity has also been taken to clarify and strengthen existing examples of children's learning and educators' practices. | <ul style="list-style-type: none"> The VEYLDF does not explicitly reference the <i>Disability Discrimination Act (1992)</i> and the <i>Racial Discrimination Act (1975)</i> and the notion of making reasonable adjustments for all Learning Outcomes to ensure learning engagement for all children, however services are already required to adhere to these requirements. The VEYLDF draws upon the <i>United Nations Convention on the Rights of Persons with Disabilities, the Early Childhood Australia Code of Ethics 2016, and the Australian Human Rights Commission publication: Supporting Young Children's Rights Statement of Intent (2015-2018)</i>. The VEYLDF acknowledges broadly, through the Practice Principles, a commitment by early childhood professionals to have high expectations for every child's learning and development, that families are the primary influence on children's learning and development and partnerships with families are critical. A structural difference between the EYLF V2.0 and the VEYLDF is that the EYLF contains descriptive Learning Outcome tables. The VEYLDF provides connections between each of the five Outcomes and the first three levels of the Victorian Curriculum F-10. |

|---|--|---|---|
| Learning Outcome 2 | | | |
| <p>Children are connected with and contribute to their world</p> <ul style="list-style-type: none"> • <i>Children develop a sense of belonging to groups and communities and understanding of the reciprocal rights and responsibilities necessary for active citizenship</i> • <i>Children respond to diversity with respect</i> • <i>Children become aware of fairness</i> • <i>Children become socially responsible and show respect for the environment</i> | <ul style="list-style-type: none"> • Learning Outcome strengthened to include notions of connections across communities where children are assisted to explore different perspectives, traditions and practices to their own. • Key component 1 expanded to include the idea of children as active and informed citizens and renamed: <i>Children develop a sense of connectedness to groups and communities and an understanding of their reciprocal rights and responsibilities as active and informed citizens.</i> • Descriptions of digital contexts and the use of digital technologies and the internet for finding, sharing and communicating information as well as connecting with others added. • Concepts of sustainability are based on the broader definition of sustainability spanning environmental, social and economic sustainability. This includes exploration of the ties of Aboriginal and Torres Strait Islander cultures to the land and the ways in which the Traditional owners cared for and sustained the land and waterways. | <ul style="list-style-type: none"> • Children are participating in many communities beyond their local community, many by digital means. • Adopting a broader definition of sustainability, encompassing environmental, social and economic sustainability, recognises children as competent problem solvers, able to engage with complex problems and to enact positive change. It also aligns with the current international definition of sustainability and understandings of sustainability in the Australian Curriculum V9.0 supporting continuity of learning. | <ul style="list-style-type: none"> • The VEYLDF Outcome 2 description similarly acknowledges the importance of children becoming aware of the impact of the local environment, both physical and social, on their lives. • The VEYLDF acknowledges that children are citizens with equal rights and are consulted meaningfully, with families and communities, about issues that affect them. This content update brings further alignment to the VEYLDF. |

| Learning Outcome 3 | | | |
| <p>Children have a strong sense of wellbeing</p> <ul style="list-style-type: none"> • <i>Children become strong in their social and emotional wellbeing</i> • <i>Children take increasing responsibility for their own health and physical wellbeing</i> | <ul style="list-style-type: none"> • Key components expanded from two to three. • Key component 1 expanded to include mental wellbeing. • Key component 2 <i>Children take increasing responsibility for their own health and physical wellbeing</i> split into two elements and is now: <ul style="list-style-type: none"> ○ <i>Children become strong in their physical learning and wellbeing</i> ○ <i>Children are aware of and develop strategies to support their own mental and physical health and personal safety</i> • Key component 3 expanded to include teaching and learning about personal safety. | <ul style="list-style-type: none"> • This update recognises the importance of a comprehensive approach to promote and support wellbeing, the understanding of the benefits of regular physical activity, teaching of wellbeing concepts and mental health promotion have been strengthened. • Children’s wellbeing plays a critical part to their social and emotional development and therefore has been added. The importance of wellbeing in children’s learning and development has been acknowledged with its inclusion in the second element. • Increasing awareness and strengthening children’s responsibility for their own mental and physical health and personal safety are important features of children’s continued positive learning, development, and wellbeing. • The focus on personal safety in Key component 3 responds to recommendations from the Royal Commission (and ToR) and aligns with the Australian Curriculum V9.0. | <ul style="list-style-type: none"> • VEYLDF Outcome 3 acknowledges that wellbeing means having good mental and physical health, including attachment, positive affect and self-regulation. • The VEYLDF promotes the role of early childhood professionals to support children to continue to learn and practice strategies that enable them to manage disappointments, anxiety, frustration and loss. • The VEYLDF does not explicitly reference personal safety, but acknowledges the importance of spatial awareness, positive experiences of active outdoor play, and physical exercise in supporting children’s ability to move around their environment confidently and safely. |

| Learning Outcome 4 | | | |
| <p>Children are confident and involved learners</p> <ul style="list-style-type: none"> • <i>Children develop dispositions for learning such as curiosity, cooperation, confidence, creativity, commitment, enthusiasm, persistence, imagination and reflexivity</i> • <i>Children develop a range of skills and processes such as problem solving, enquiry, experimentation, hypothesising, researching and investigating</i> • <i>Children transfer and adapt what they have learned from one context to another</i> • <i>Children resource their own learning through connecting with people, place, technologies and natural and processed materials</i> | <ul style="list-style-type: none"> • Learning Outcome strengthened to contain descriptions of children’s thinking, development of conceptual thinking (e.g. science and mathematics) and reinforces ideas of brain development, teaching children about how their brain works and using the language of learning to develop a growth mindset. Establishing the interrelatedness of thinking and learning. • Key component 1 and 2 updated. • Key component 1 is now <i>Children develop a growth mindset and learning dispositions such as curiosity, cooperation, confidence, creativity, commitment, enthusiasm, persistence, imagination and reflexivity.</i> • Key component 2 is now <i>Children develop a range of learning and thinking skills and processes such as problem solving, inquiry, experimentation, hypothesising, researching and investigating.</i> | <ul style="list-style-type: none"> • Expanding this outcome to strengthen children’s thinking allows the further exploration of metacognition and the language of learning. • Early childhood is a time for developing conceptual thinking as it is a platform for the later development of more complex • concepts and ideas. Giving children simple explanations of how their brain works and using the language of learning assists in developing a growth mindset. • The understanding that thinking and learning are interrelated is established. • A growth mindset, and learning dispositions are an important part of becoming an engaged learner. • Providing opportunities for children to explore and develop a range of learning and thinking skills compliments children’s curiosities and strengthens their learning and thinking. | <ul style="list-style-type: none"> • The content updates to this Learning Outcome brings further alignment to the VEYLDF. • VEYLDF Outcome 4 acknowledges the role of metacognition in deepening children’s knowledge of information and processes. |

| Learning Outcome 5 | | | |
| <p>Children are effective communicators</p> <ul style="list-style-type: none"> • <i>Children interact verbally and non-verbally with others for a range of purposes</i> • <i>Children engage with a range of texts and gain meaning from these texts</i> • <i>Children express ideas and make meaning using a range of media</i> • <i>Children begin to understand how symbols and pattern systems work</i> • <i>Children use information and communication technologies to access information, investigate ideas and represent their thinking</i> | <ul style="list-style-type: none"> • Key component 5 updated to <i>Children use digital technologies and media to access information, investigate ideas and represent their thinking.</i> • Understanding the many ways that children can communicate has been included. • Mathematical thinking has been strengthened to build numeracy. • Strengthened guidance to include: <ul style="list-style-type: none"> ○ oral, aural and nonoral languages ○ communication through the Arts ○ content added to describe mathematical ideas to build numeracy and mathematical thinking ○ a focus on children as creative, safe, and critical users of technology for learning, leisure and creative expression. • Strengthening of active listening and a strong foundation of oral language for literacy and learning. • Content added for the safe use of digital technologies for learning and communication. | <ul style="list-style-type: none"> • Promoting safe ways of using technology and nurturing critical skills to operate in the digital environment is also of growing importance. To illustrate this the continued theme of digital technologies and media is highlighted by changing the last element. • Time to talk with peers is particularly important and building oral language and vocabulary is seen as critical in the development • of reading skills. So too, children need opportunities for creative expression through different methods and materials that supports all areas of learning. • Active listening and a strong foundation of oral language is critical to literacy development and learning. | <ul style="list-style-type: none"> • VEYLDF Outcome 5 notes that children use digital technologies and multimedia resources to communicate, play and learn. |
