The Victorian Government is committed to the safety and wellbeing of all children and young people.

As part of the Victorian Government’s commitment to implementing the recommendations of the Betrayal of Trust report, which found that more must be done to prevent and respond to child abuse in our community, there is a new regulatory landscape surrounding child safety, underpinned by new Child Safe Standards.

WHAT ARE THE IMPLICATIONS FOR WORKPLACE LEARNING UNDERTAKEN BY SCHOOL STUDENTS?

Ministerial Order 870 – Child Safe Standards – Managing the Risk of Child Abuse in Schools operationalises the Child Safe Standards in registered schools.

Standard 6 requires the school governing authority to develop, implement, monitor and evaluate risk management strategies to ensure child safety in school environments. Ministerial Order 870 defines a child as “a child enrolled as a student at the school”.

The definition of ‘school environment’ in Ministerial Order 870 extends to any physical or virtual place made available or authorised by the school governing authority for use by a child during or outside school hours. This includes workplace learning environments where students undertake work experience, structured workplace learning, school community work (volunteering) and School Based Apprenticeships and Traineeships (SBATs).

Registered schools are therefore required to develop and implement risk management strategies prior to students undertaking workplace learning to ensure their safety will not be compromised and the school complies with the requirements of Ministerial Order 870.

WHAT CAN EMPLOYERS DO TO MANAGE CHILD SAFETY RISKS IN THE WORKPLACE?

1. Nominate a supervisor (or supervisors) who will directly supervise the student throughout their placement.
2. Ensure that the student’s supervisor/s and other employees in the workplace understand acceptable and unacceptable behaviours in dealing with students. (Refer to the table on the reverse side of this fact sheet for some examples of these behaviours.)
3. Schools are encouraged to make employers aware of the school’s approach to child safety by providing them with a copy of their child safety policy or statement of commitment. Employers are encouraged to seek a copy of this from schools if it has not been provided. Similarly, if the employer is an in scope organisation for Child Safe Standards, they are encouraged to provide a copy of their child safety policy or statement of commitment to schools.
4. Explain your workplace policies regarding bullying, harassment and discrimination, and any other behavioural standards or codes of conduct that apply to the workplace, to the student.
5. Explain your workplace policy for dealing with concerns or complaints about behaviour at work. Encourage the student to report any concerns directly to you and/or their supervisor, and to the school principal or another staff member at their school.
6. Ensure the student can readily contact their school if required during the placement.
7. Ensure school staff can readily contact the student to check in with how their placement is progressing.
8. Liaise immediately (or as soon as possible) with the school regarding any issues arising in the workplace.
