Executive Summary

This document outlines the proposed changes to be made to the Victorian VET Student Statistical Guidelines (the Guidelines) for 2019.

The Guidelines form a data standard which specifies how training activity should be reported in a consistent manner to the Department. This data standard includes concepts, definitions and structures that are founded on and compliant with the Australian Vocational Education and Training Management Information Statistical Standard (AVETMISS). In addition to the standard, Victoria may extend the reporting requirements beyond those contained within AVETMISS, where these changes are required to support Government policy and programs.

Where the Guidelines deviate from AVETMISS, the Department ensures there is a clear rationale behind these changes, alternatives have been assessed, and that the resultant benefit is weighed against then impact of the change. As the nature of the changes varies, stakeholders will be impacted in various ways. The changes in this document have been analysed by the department with a view to understanding the impact. Changes to the Guidelines are generally limited to an annual cycle, with these changes specified in July for implementation in January the following year; this provides a six month lead time for stakeholders to implement changes.

The proposed changes for 2019 centre around strengthening Victoria's ability to manage the government funded training market through the use of timely and comprehensive training activity data.

Change Impact Analysis Methodology

Changes to the Guidelines are generally limited to an annual cycle, with these changes specified in July for implementation in January the following year; this provides a six month lead time for stakeholders to implement changes.

Off-cycle changes during the year are only considered if they address one of the following issues:

- certain aspects of the Guidelines that are **ambiguous**, **erroneous** or require **clarification**
- scenarios adversely affecting the **data integrity** of the collection
- ensuring **compliance** with statutory or national requirements
- **reduce burden** of reporting requirements on providers.

Decisions to make out-of-cycle changes are not made lightly. A review of each change is conducted by the department to assess the impact on various stakeholders involved in the data collection process. This methodology is outlined below.

Stakeholder Impact Rating

0	None	None, no impact
1	Low	May be aware of change but little or no action is generally required
2	Medium	Must be aware of the change and act where required
3	High	Needs to review the change and take action
4	Very High	Needs to significantly change processes and systems

Data Collection Stakeholder Impact Weighting

The effect of introduction of/modification to:

0.5	Provider	Learners	Information solicited from the learner
1.5		Trainers	Assessment/observation required from trainers
3.5		Administration	Administrative, financial or enrolment processes
3.8	Vendor	Software	SMS design, interfaces, processes, configuration and education
3.2	DET	Analysis/Decision Making	BI Infrastructure, interpretation, dissemination and education
2.8		Contract, Payment, Audit	Instruments
3.8		System	Infrastructure, specification, interfaces, processes, configuration

Glossary

Usual Residence

Change 2019-5	Deleted following: Usual residence means the address at which the person has lived or intends to live for a total of six months or more. Reference ABS Cat.2901.0. It refers to the physical address where the student usually resides rather than any temporary address at which they reside for training, work or other purposes before returning to their home. Usual residence must be a physical address (street number and name) and not a post office box. It must represent the student's own residential address and cannot be that of an organisation or training provider.
Reason:	Align with AVETMISS definition.
No impact	Clarification only. Change has already been noted in earlier version of Guidelines for the business rule regarding postcode reporting for international onshore and offshore students.
SVTS	No impact on SVTS.

Standard Enrolment Form

Standard enrolment questions

Change 2019-4	Added new value to Question 19 (Study Reason) on the standard enrolment form: 13 – To get skills for community/voluntary work
Reason:	Omitted in the Standard enrolment form section in earlier version.
Low Impact:	Clarification only. Change has already been noted in earlier version of Guidelines in the 'Study Reason Identifier' data element definition but was omitted from the questions on the Standard enrolment form.
SVTS	No impact on SVTS.
