| 2.1 Purpose of the course | This is an entry level qualification for a career at the operational /management level in an organisation involved in international business. The key vocational outcomes are the development of:  
  - international business acumen  
  - working knowledge of global business principles  
  - generic skills set in an international business environment  
  The Advanced Diploma of International Business provides students with an understanding of the complexities of international business. It draws on an intricate web of resources in manufacturing, marketing, finance and logistics and involves both government and the private sector. Graduates have the capacity to be employed across several industry sectors including business, finance, transport and logistics. |

  *Source: VET Course Data Set*  
  The key stakeholders have confirmed that research conducted into the industry need for people with international business qualifications and experience, prior to and during the five years of the accreditation period of the existing course, remains accurate and current. |
During the recent research phase for the renewal of this course, the key stakeholders further stressed that the course continues to meet industry training needs however some updating is necessary to reflect the increasing importance of compliance in the international arena and sound financial management. Skills gained from undertaking this course will be essential to graduates seeking work in existing organisations as well as those seeking to start their own international business venture.

The content of this course has been determined and endorsed by the Steering Committee comprising a majority of industry representatives through a range of consultative processes including:

- a group comprising a range of stakeholders including industry representatives and content experts
- research by project team
- working party of content experts

See:

Appendix 1 Course content developed by stakeholders

1.1 Training Demand/Job Search
1.2 Skills and knowledge mapping

After mapping the vocational outcomes against national training packages and accredited courses, it was found that there is no qualification that provides training in the vocational outcomes (Section B 2. above) required for effective contribution within the international business sector.

Anticipated employment opportunities include:

- International Operating Coordinator
- Shipping and Logistics Coordinator
- Sales Coordination Export Officer
- International Import Export Officer
- Export Officer
- Graduate – Operations
- International Trade, Finance and Procurements Coordinator

The job search analysis, and the associated knowledge and skills requirements, has been ratified by members of the Steering Committee and matched to the course structure.

Industry support is confirmed through the endorsement and active participation of the Steering Committee.
Members of the steering committee

- **Chair** – Lawrence Christoffelsz, Director, Australian Chamber of International Trade and Managing Director, Logistics Results Pty Ltd
- Graham Airey, Industry Group Manager Marketing, PR and International Trade, RMIT University
- Russell Burke, ICAL International Customs and Logistics P/L
- Kevin Maher, Chairman, Australian Chamber of International Trade
- Neven Milevoj, Logistics Manager, Sportsgirl
- Michael Taylor, Advisor-Opportunities/Partnerships, Australian Trade Commission
- Tim Wallis, Program Manager, Marketing, International Trade and Logistics, RMIT

In Attendance:

- Alan Daniel: Curriculum Maintenance Manager – Business Industries, Chisholm
- Madeleine Hayne, Administrative Coordinator, CMM Business Industries, Chisholm
- Course developer: Anna Henderson: Executive Director, Business Skills Viability

### 3.2 Review for re-accreditation

**Standards 1 and 2 for Accredited Courses**

Monitoring and evaluation of 22039VIC Advanced Diploma of International Business has been conducted in accordance with Section B.9. Ongoing monitoring and evaluation, of the Course Documentation and ensuing feedback has been taken into account in the revised course.

Revisions are based on formal and informal data collected from RTO teaching staff, student feedback and experts, and through input from the Steering Committee and Stakeholders.

Learners currently enrolled in the existing course may convert to: 22279VIC Advanced Diploma of International Business which replaces and is equivalent to 22039VIC Advanced Diploma of International Business.

Please refer to the following - [3.2.1: Transition Table](#) - for transition arrangements.

No new enrolments into 22039VIC Advanced Diploma of International Business are permitted after 30 June, 2015.
### 3.2.1 Transition Table

No new enrolments into 22039VIC Advanced Diploma of International Business after 30 June, 2015 are permitted.

## 4. Course outcomes

### 4.1 Qualification level

The 22279VIC Advanced Diploma of International Business is consistent with the Qualification Framework 2nd Edition January 2013 (AQF) specification for Advanced Diploma (Level 6) as follows:

- **Knowledge:** Graduates of an Advanced Diploma will have specialised and integrated technical and theoretical knowledge with depth within one or more fields of work; and:
  - understand the principles of conducting business in the international arena, with specialised knowledge in compliance and financial management.
- **Skills:** Graduates at this level will have a broad range of cognitive, technical and communication skills to select and apply methods and technologies to:
  - demonstrate understanding of specialised knowledge with depth in some areas of regulations including national and international legislation such as Customs Act, INCOTERMS, Trade Practices Act and Convention on International Trade in Endangered Species (CITES)
  - analyse, diagnose, design and execute judgements across a broad range of technical or management functions in the application of the legislation of overcoming compliance issues and meeting legal requirements in international trade
  - generate ideas through the analysis of information and concepts at an abstract level of a range of information sources to address intercultural communications problems and misunderstandings with international clients
  - demonstrate a command of wide-ranging, highly specialised technical, creative or conceptual skills in the application of numerical skills and data analysis to analyse purchasing power parity in relation to foreign exchange rate changes, currency conversion, trade weighted index, balance of trade and interest rate differentials
  - demonstrate accountability for personal outputs within broad parameters in developing own action/work plan according to own responsibilities and the international business project brief
- demonstrate accountability for personal and group outcomes within broad parameters in coordinating and facilitating team work in the applications of the socio economic and cultural practices of a selected country or region or the application of culturally appropriate communication styles to an international trading relationship.

- **Application of knowledge and skills**: Graduates at this level will apply knowledge and skills to demonstrate autonomy, judgement and defined responsibility to:
  - operate as a potential business owner of a small start-up import/export business
  - conduct international business with an awareness of international legal and compliance obligations
  - utilise transport and logistics systems in international business
  - research and analyse international trading and contractual arrangements
  - apply e-solutions to international business

- **Volume of Learning**: The Advanced Diploma of International Business incorporates structured and unstructured learning.

  Structured learning activities develop the knowledge and skills to conduct business in the international arena with specific focus on compliance, legal and ethical obligations, transport and logistic systems, finances structures and cultural communications.

  Unstructured learning activities are an integral part of the total training and include research, managing a variety of projects, self-directed learning activities and work experience to support course completion.

  The volume of learning for this qualification is typically 1.5 – 2 years.

5.2 Entry requirements

**Standard 9 AQTF Standards for Accredited Courses**

There are no formal entry requirements for this course, although participants would be best equipped to achieve the course outcomes if they have the learning, reading, writing, oracy and numeracy competencies to Level 4 of the Australian Core Skills Framework (ACSF).

The recommended pathway for entry into this course is through the successful completion of all of the following units of competency (or their successors) or demonstrated equivalence. These units of competency are from the BSB07 Business Services Training Package.

**OR**

The BSB50807 Diploma of International Business and BSB41107 Certificate IV in International Trade from the BSB07 Business Services Training Package (or their successors).

6. Assessment

**Standard 10 and 12 AQTF Standards for Accredited Courses**

6.1 Assessment strategy

**Standard 10 AQTF Standards for Accredited Courses**

All assessment will be consistent with the Australian Quality Training Framework Essential Conditions and Standards for Initial/Continuing Registration Standard 1.2 (Initial) and Standard 1.5 (Continuing). See:

AQTFC User guides to the Essential Conditions and Standards for Initial/Continuing Registration; or

SNR 4.2 (Part 2) and SNR 15.2 (Part 3) of the Standards for NVR Registered Training Organisations 2011. See:

Standards for NVR Registered Training Organisations 2012:

Imported units of competencies must be assessed according to the rules of the relevant Training Package.
### Assessment methods and collection of evidence

Assessment methods and collection of evidence will involve application of knowledge and skills to international business practice workplaces or simulated environments.

All assessment activities will be related to an international business context.

A range of assessment methods will be used, such as:

- action learning projects in real, or simulated, international business settings
- research projects in a range of areas of international interest
- portfolio development and presentation
- practical demonstration of skills
- case studies and scenarios, including fact situations
- observation
- written and direct questioning / tests and examinations
- review of information produced by the candidate and provided to the work group
- review of verified records and reports generated by the candidate

Where the learning is conducted in simulated worksites, the individual needs of the learner will be reflected in the assessment methods.

Consistent with Standard 1, Element 5 of the *Australian Quality Training Framework Essential Standards for Initial/Continuing Registration*, RTOs must ensure that Recognition of Prior Learning (RPL) is offered to all applicants in determining competency for Credit.

There is no mandatory workplace assessment.

### 6.2 Assessor competencies

**Standard 12 AQTF Standards for Accredited Courses**

The *Australian Quality Training Framework Essential Conditions and Standards for Initial/Continuing Registration*, Standard 1.4 states the requirements for the competence of persons assessing the course. See [AQTF User guides to the Essential Conditions and Standards for Initial/Continuing Registration](#); or

SNR 4.2 (Part 2) and SNR 15.4 (Part 3) of *Standards for NVR Registered Training Organisations 2012*: state the requirements for the competence for persons assessing the course.
### 7 Delivery

7.1 Delivery modes

Deliver units of competency from the relevant Training Packages must be consistent with the guidelines of the relevant Training Package.

Delivery of units of competency imported from Training Packages should be contextualised to the international business sector, whilst ensuring that the delivery guidelines are adhered to. The following rules apply for contextualisation:

- elements and associated performance criteria must not be altered in any way
- the range statement may be expanded as long as it does not increase the complexity of the unit
- the evidence guide or the assessment requirements (depending on the unit template used) may be expanded as long as it retains the integrity of the unit and does not jeopardise the student’s potential to achieve the competency
- learning and assessment resources may be tailored to the specific needs of the target group, while maintaining their validity.

Delivery of units of competency will take into consideration the individual needs of students and will involve blended delivery mode including:

- workshops
- individual assignments
- team-based assignments
- use of case studies
- applied learning in the workplace or simulated international business environment
- multi-media presentations and classroom instruction
- industry guest speakers
Learners may be supported through: on-line (internet, social media, email and telephony); face-to-face conferencing, mentoring and interviews; ad hoc arrangements, and regular progress monitoring, particularly for practical work.

The course may be delivered part-time or full-time.

There is no mandatory workplace delivery.

### 7.2 Resources

**Standard 12 AQTF Standards for Accredited Courses**

Resources include:

- teachers/trainers who meet the
  - *Australian Quality Training Framework Essential Conditions and Standards for Initial/Continuing Registration* Standard 1.4. See [AQTF User guides to the Essential Conditions and Standards for Initial/Continuing Registration](#); or
  - SNR 4.2 (Part 2) and SNR 15.4 (Part 3) of *Standards for NVR Registered Training Organisations 2012*:
- access to computers and internet
- access to workplace or simulated international business environment

### 8. Pathways and articulation

**Standard 8 AQTF Standards for Accredited Courses**

This qualification comprises nationally endorsed units of competency from the BSB07 Business Services TLI10 Transport and Logistics Training Package and PSP12 Public Sector Training Package. Participants who successfully complete any of these units will, upon enrolment, gain credit into other qualifications that require those same units.

Likewise, those participants who have successfully completed any of these units of competency from the Training Package will, upon enrolment into the Advanced Diploma of International Business, gain credit for those same units.

There are no formal articulation arrangements at present.

Appendix 1: Course content developed by stakeholders

1.1 Labour market information / Job search

Steering Committee and project team members have identified skills and knowledge areas required for practitioners in engaged in the operation of international business or associated fields within public and/or corporate sectors. Anticipated employment outcomes are:

- Sales coordination
- International operations
- Trade
- Regional coordination
- Shipping and logistics
- International import and export
- Procurement
- Finance

Training demand and course relevance to existing labour market positions is evidenced in research conducted prior to and during the accreditation period of the existing course and been confirmed by stakeholders and Steering Committee members. See table 1.1: Summary of research into skills and knowledge required by industry.

Table 1.1: Summary of research into skills and knowledge required by industry

Section C—Units of competency

The following units of competency have been imported from the BSB07 Business Services Training Package:

- BSBINN601A Manage organisational change
- BSBMKG605B Evaluate international marketing opportunities
- BSBMKG606B Manage international marketing programs
- BSBMGT605B Provide leadership across the organisation
- BSBMGT616A Develop and implement strategic plans
- BSBMGT515A Manage operational plan
- BSBPUR502B Manage supplier relationships
- BSBPUR503C Manage international purchasing
- BSBPUR504B Manage a supply chain
- BSBREL402A Build client relationships and business networks
- BSBRSK501B Manage risk
- BSBSUS501A Develop workplace policy and procedures for sustainability

The following units of competency have been imported from the TLI10 Transport and Logistics Training Package:

- TLIX6001A Formulate material logistics strategies
- TLIX5015A Establish supply chains
- TLIL5026A Manage export logistics

The following units of competency have been imported from the PSP04 Public Sector Training Package:

- PSPGOV602B Establish and maintain strategic networks
- PSPPROC607A Manage strategic contracts

Details of the following units of competency developed for the course are attached:

- VU21667 Manage compliance with international legal and ethical obligations
- VU21668 Plan and implement a transport and logistics system for an international trade organisation
- VU21669 Review the financial structures and processes in international trade
- VU21670 Research and report on the feasibility of import or export venture
- VU21671 Apply contract law to international business activities
- VU21672 Analyse and report on economic trends in the global market
- VU21673 Manage cultural communications
- VU21674 Plan and manage international freight transfer
- VU21765 Build cross cultural capability for business in Asia
• VU21766 Build networks and relationships for business in Asia
• VU21767 Negotiate business outcomes in Asia
• VU21768 Prepare to establish a workforce presence in Asia
• VU21769 Assess risk for business in Asia
• VU21770 Tailor a product or service to the Asian market
### VU21667 Manage compliance with international legal and ethical obligations

#### Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to manage international legal and ethical obligations and provide consultation and advice to those with this responsibility. It includes evaluating international business to assess compliance or non-compliance with relevant ethical practices and international legal obligations; examining issues of non-compliance; and selecting strategies that could be implemented to contribute to compliance.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

#### Employability Skills
This unit contains Employability Skills.

#### Application of the Unit
This unit applies to managers who perform or oversee the business functions of an organisation within an international business context.

The unit may relate to a small to medium size organisation or a significant business unit within a large enterprise.

Managers in the international business environment must be able to understand and respond to the legal and ethical aspects of the international environment.

#### ELEMENT | PERFORMANCE CRITERIA
--- | ---
1. Assess international business compliance requirements | 1.1 Access and interpret current, relevant *international legal obligations*
 | 1.2 Access and interpret current international business *ethical practices with regard to international business*.
 | 1.3 Gather information that will assist in the assessment of a potential or possible breach in international business practices.
 | 1.4 Review *performance data* within all *areas of the business* to identify compliance issues relating to international business activity.
 | 1.5 Identify and analyse *trends and developments* having an impact on international business activity for their potential on impact on future compliance with ethics and legislation.
2. Review non-compliant | 2.1 Gather information that assists in the assessment of non-compliance from *advisory materials, stakeholders* and
international business practices and propose resolution strategies

2.2 Review information and compare to international business ethical and legislative requirements to assess non-compliance.

2.3 Following consultation with relevant personnel, assess and prioritise urgency of non-compliance to international business issues to enable timely and effective action.

2.4 Propose strategies for resolving non-compliant factors of international business practices according to organisational procedures.

2.5 Complete reports and records and process according to organisational and legislative requirements.

3. Implement practices that facilitate compliance with international business ethics and legislation

3.1 Communicate compliance requirements of international business practices to relevant personnel to confirm understanding and ensure consistency of interpretation and application.

3.2 Convey potential consequences of non-compliance with international business practices ethics and legislation using language and examples suited to individual needs.

3.3 Identify practices that may contribute to non-compliance and facilitate the implementation of compliance measures.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- language and literacy skills to:
  - read, interpret and communicate legislation, regulations, policies, procedures and guidelines relating to workplace relations
  - prepare reports and correspondence containing information that is impartial, validated, accurate and complete
  - communicate impartially and diplomatically with diverse stakeholders, including conducting open discussions and using appropriate questioning techniques

- research skills to:
  - identify relevant legislation, regulations, policies, procedures and guidelines relating to workplace relations
  - identify risk and appropriate risk management practices

- time-management skills to plan and prioritise work
• organisation and planning skills to administer and manage records and files.
• interpersonal and teamwork skills to:
  o lead a team
  o consult and provide advice
  o negotiate effectively
  o settle disputes

**Required Knowledge**

• international legal frameworks
• business ethics
• international legal obligations to comply with:
  o international trade laws and conventions
  o anti-bribery and corrupt practices laws and conventions
  o privacy laws and conventions
  o labour laws and conventions
  o environmental laws and conventions
• relevant support organisations
• strategies for encouraging compliance, such as:
  o checklists
  o audit trail tracking
  o internal audit processes
  o transparency of workplace arrangements
• roles and responsibilities of stakeholders, including employers, employees, legal representatives, unions, advisory bodies and other government agencies
• procedures and protocols for reporting non-compliance with international business ethical or legislative practices
• consequences of non-compliance with international business ethical or legislative practices
• organisational policies and procedures relating to managing compliance with international business.

**RANGE STATEMENT**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the performance criteria is detailed below.

**Please note:** It is possible that over the five year accreditation period of this document, some legislation may become superseded. Teachers are encouraged to check the currency of legislation cited in this course at:

Treaties to which Australia is a signatory: http://www.info.dfat.gov.au/treaties

The currency of international legislation should be reviewed with reference to the appropriate government or international body responsible for the administration of that law.

**International legal obligations** may include

Anti-bribery and corruption laws and conventions:
- United Nations Convention against Corruption;
- *Criminal Code Amendment (Bribery of Foreign Public Officials) Act 1999*(Australia)
- The *Foreign Corrupt Practices Act of 1977 (FCPA)* (United States)
- The Bribery Act 2010 (United Kingdom).

Privacy laws and conventions:
- *Privacy Act 1988* (Australia)

Labour laws and conventions:
- International Labour Organisation Declaration and the Fundamental Principles and Rights at Work;
- The Convention on the Rights of the Child (No. 138 on the Minimum Age for Admission to Employment, 1973) and No. 182 on the Worst Forms of Child Labour, 1999

International Trade laws and conventions:
- *Article VI of the GATT* (Anti-Dumping)
- Customs Tariff (Anti-Dumping) Act 1975
- Charter of the United Nations Act 1945 (Cth) – Part V and Part VI (Sanctions)
- Autonomous Sanctions Act 2011 (Cth) (Australia)
- Customs (prohibited imports) regulations 1956

Environmental laws and conventions:
Section C Units of competency

VU21667 Manage compliance with international legal and ethical obligations

- *Illegal Logging Prohibition Act* 2012 (Australia)
- Convention on the International Trade in Endangered Species of Wild Flora and Fauna (CITES);
- Convention on the Prevention of Marine Pollution by Dumping Wastes and Other Matter

**Ethical practices with regard to international business** may include:

- codes of practice
- ethical principles
- society’s expectations
- cultural expectations and influences
- social responsibilities
- ethical work practices
- sound contracting of staff
- sound work premises
- safety issues
- security
- privacy issues
- environmental issues

**Performance data** may include:

- benchmarking against Australian performance
- benchmarking against international standards and international performance
- inter-firm comparison data
- mean
- median
- mode

**Areas of business** may include:

- goods
- services
- foreign aid
- environmental aid

**Trends and developments** may include:

- international economic trends:
  - regulation and or deregulation
  - war and conflict
• environmental changes
• social upheaval

• social and cultural factors
• industrial trends
• changes in technology
• foreign trade
• stability of monetary currencies

**Advisory materials** may include

• organisational knowledge banks and sources
• training manuals
• appropriate websites
• appropriate organisations

**Stakeholders** may include

• employees
• employers
• international trade brokers
• volunteer organisations
• interested third parties
• trainees and apprentices
• employee representatives
• employer representatives
• government departments
• employer associations
• unions

**Workplace documents** may include:

• contractual documentation
• organisational policies and procedures
• knowledge banks
• written advice
• legal documentation
• bulletins
• guides
• manuals
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence gathered is to be related to:

- interpreting and communicating international business information to diverse stakeholders
- identifying and assessing potential breaches of international business practices
- researching specific details of international business ethics and legislation
- participating in resolution of international business ethical and legislative non-compliance issues.

Context of and specific resources for assessment

Assessment of performance requirements in this unit should be undertaken within the context of the international business framework. Competency is demonstrated by performance of all stated criteria, including Range Statements applicable to the workplace environment.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. All participants may take advantage of electronic media to generate and submit reports or presentations to support each performance criterion either individually or holistically.

Assessors should consider the assessment of salient knowledge, skills and content understanding through specific or combined electronic media, workplace contact or mentoring.

The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

Method of assessment

Resources required for assessment include:

- Access to a relevant workplace or closely simulated international business environment
- Accessibility to suitable books, journals and papers together with computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.
- Project work
- Written reports supported by practical assignments or tasks for individual assessment
- Observation of workplace practice supported by personal interviews
- Practical display with personal interview, presentations or documentation
- Case studies

**Guidance information for assessment**
Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
VU21668 Plan and implement a transport and logistics system for an international trade organisation

Unit Descriptor
This unit describes the skills and knowledge required to develop and implement a transport and logistics system within an international trade organisation or relevant workplace environment. It also includes the skills and knowledge required to monitor and evaluate the effectiveness of the transport and logistics system.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills
This unit contains Employability Skills.

Application of the Unit
This unit applies to those with responsibility for international business management and who provide leadership in the application of cultural communications within international business relationships.

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>1. Determine a suitable transport and logistics system for international trade organisations.</td>
<td>1.1 Analyse transport and logistics systems to assess potential contribution to the attainment of organisational goals and objectives.</td>
</tr>
<tr>
<td>1.2 Identify transport and logistics needs of all stakeholders.</td>
<td></td>
</tr>
<tr>
<td>1.3 Research and analyse constraints that may impact on transport and logistics systems</td>
<td></td>
</tr>
<tr>
<td>1.4 Identify and analyse operating environment of the transport and logistics systems.</td>
<td></td>
</tr>
<tr>
<td>1.5 Develop transport and logistics strategy in accordance with relevant regulatory and organisational requirements.</td>
<td></td>
</tr>
<tr>
<td>2. Develop and implement a transport and logistics system for an international trade organisation.</td>
<td>2.1 Establish policies, procedures and work practice guidelines to ensure the transport and logistic system is legal, ethical and functional.</td>
</tr>
<tr>
<td>2.2 Determine resource requirements of the transport and logistics system.</td>
<td></td>
</tr>
<tr>
<td>2.3 Establish organisational review and reporting protocols for the transport and logistics system.</td>
<td></td>
</tr>
</tbody>
</table>
2.4 Develop implementation plan for the transport and logistics system in accordance with relevant regulatory and organisational requirements.

2.5 Implement the transport and logistics plan in the required time period.

2.6 Establish a local and international receiving and distribution network.

3. Monitor and evaluate the effectiveness of the transport and logistics system

3.1 Establish critical success factors and key performance indicators for a transport and logistics system.

3.2 Establish timelines for the objectives of a transport and logistics system.

3.3 Implement performance monitoring systems linked to the management information system to monitor and evaluate the effectiveness of the transport and logistics system.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- communication skills to:
  - convey information in order to manage international freight transfer operations
  - complete documentation pertaining to international transport and logistics systems
  - maintain workplace records and documentation pertaining to transport and logistics operations
  - question, clarify, discuss and report on logistics needs with stakeholders
  - access, read and interpret business and market data, regulatory requirements and other planning information
- numeracy skills for the analysis of statistical data
- language and literacy skills to read and interpret instructions, procedures and information
- planning skills to:
  - implement performance monitoring and management information systems
  - monitor work activities in terms of planned schedule
  - modify activities depending on differing operational contingencies, risk situations and environments
- technological skills to select appropriate transport and logistics information systems and procedures.

Required Knowledge
- transport and logistics system in international trading
- Government and the impact of legislation on transport and logistics policies, practices and conventions – national and international
- logistics contractual obligations and liabilities
- insurance requirements for human resources, inventory, plant and equipment
- internal and external logistics brokers
- technological developments including automated handling and electronic data interchange (EDI)
- informational and points of contact for varying types of transport and logistics operations/alternatives – politicians, industry advisory bodies and brokers
- budgetary considerations for development, implementation and operation
- public and private ownership of transport networks
- inventory systems in the transport and logistics industry
- integration of transport and logistics system reporting into MIS
- sourcing and purchasing and materials management – policies, procedures and planning
- organisational critical success factors and key performance indicators
- technology used in transport and logistics
- transport and logistics systems:
  - automated and manual
  - just in time (JIT)
  - tracking
- transport and storage of hazardous materials
- transport and logistics local and international trends
- customer service processes in the transport and logistics industry
- management information and reporting requirements in the transport and logistics industry
- cost/benefit analysis processes
- legislative requirements, policies and procedures transport and logistics industry
- materials handling equipment

**RANGE STATEMENT**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Transport and logistics system** may include:
- transport system includes the following service providers:
  - rail
  - roads
Plan and implement a transport and logistics system for an international business

**Section C: Units of competency**

- motor freight
- water transportation
- air transportation
- multimodal

- logistics system includes:
  - the process of planning, implementing and controlling the efficient flow and storage of goods, services and related information from point of origin to point of consumption for the purpose of conforming to customer requirements.

**Stakeholders** may include:

- end users:
  - customers or clients
  - sponsors

- current or potential providers or suppliers

- service providers

- freight forwarding agencies and specialists

- relevant authorities:
  - government departments
  - institutions

- representatives of other enterprises and organisations with an interest in the business activities of the organisation

- industry bodies

- staff:
  - maintenance
  - professional
  - technical

**Constraints** may include:

- legislative and ethical requirements such as:
  - Trade Practices Act
  - Workplace Health and Safety legislation
  - regulations
  - codes of practice
  - ethical principles
  - policies and guidelines
  - society's expectations
  - cultural expectations and influences
Section C Units of competency

VU21668 Plan and implement a transport and logistics system for an international business

- social responsibilities
- safety issues
- security and privacy issues and environmental issues
- customs legislation
- changes to technology
- domestic and international market variability
- political constraints

Transport and logistics strategy may include:
- technology implications
- cost benefit
- culture
- workplace productivity
- change management

Resource requirements may include:
- financial
- human
- physical
- stock requirements and requisitions
- good and services to be purchased and ordered
- insurance requirements for:
  - human resources
  - inventory
  - plant/equipment

Reporting protocol may include:
- the agreed processes and media for reporting:
  - the monitoring and review of the transport and logistics system outcomes to the relevant groups and individuals (stakeholders) affected by the reviewing process within an organisation or workplace.

Critical success factors may include:
- measurable factors, which the organisation must focus on:
  - for success
  - to meet client needs
  - to survive
- factors that because of their nature will govern the response:
  - conflicts
  - risks
  - the setting of priorities.
Key performance indicators (KPI) may include:

- measurable (quantifiable) criteria that will enable an organisation to confirm that it is moving towards and has achieved its goals.
- long term considerations
- changing considerations if the organisational goals change

Performance monitoring systems may include:

- the on-going process of collecting information in order to assess progress in meeting strategic outcomes
- provide warning if progress is not meeting expectations.

Management information systems may include:

- systems for the collection, storing and synthesizing information:
  - simple manual systems
  - complex computer-based systems
  - modified systems to cater for unique organisational requirements.

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence gathered is to be related to:

- developing a transport and logistics system for an international trade organisation including:
  - an implementation plan for transport and logistics system; policies
  - procedures and work guidelines,
  - resource requirements,
  - reviewing and reporting protocols
- monitoring and evaluating the effectiveness of the transport and logistics system
- knowledge of transport and logistics systems in international trade.

Evidence should be gathered over a period of time in a range of actual or simulated international business environments.

Context of and specific resources for assessment

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. All participants may take advantage of electronic media to generate and submit reports or presentations to support each performance criterion either individually or holistically.
Assessors should consider the assessment of salient knowledge, skills and content understanding through specific or combined electronic media, workplace contact or mentoring.

The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

Resources required for assessment include:

- Access to a relevant workplace or closely simulated international business environment
- Accessibility to suitable computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.

**Method of assessment**

- Project work
- Written reports supported by practical assignments or tasks for individual assessment
- Observation of workplace practice supported by personal interviews
- Practical display with personal interview, presentations or documentation
- Case studies
VU21669 Review the financial structures and processes in international trade

Unit Descriptor
This unit describes the skills and knowledge required to analyse international trade finance variables within Australia and in a global context. It includes examining the structures and processes of financing international import and export transactions in the banking system, including optional finance models and practices that are available to international businesses.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills
This unit contains Employability Skills.

Application of the Unit
This unit generally applies to those with responsibility for international business management and leadership for the review of the operating environments of the international banking and non-banking finance system.

ELEMENT
Elements describe the essential outcomes of a unit of competency.

PERFORMANCE CRITERIA
Performance criteria describe the required performance needed to demonstrate achievement of the element. Where bold italicised text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

1. Analyse aspects of international trade transactions
   1.1 Analyse pricing methods and their application in international trade transactions
   1.2 Analyse invoicing options and their impact on total landed cost in international trade transactions
   1.3 Calculate gross margin, net margin, markup and breakeven point in international trade transactions
   1.4 Review options for methods of payment.

2. Analyse rate movement and exposure in international trade transactions
   2.1 Analyse purchasing power parity (PPP) in relation to foreign exchange rates
   2.2 Analyse benchmarking values of trade-weighted baskets and balances of trade between different countries.
   2.3 Examine and evaluate predominant exchange rate movements for various trading nations in relation to the politico-economic trends.
   2.4 Establish measurement significance of interest rate differentials to international banks.
   2.5 Review application of bank published exchange rate schedules on buying and selling rates for foreign countries.
   2.6 Compare and evaluate functions and operations of the Reserve Bank of Australia against other central banks.
2.7 Identify and review foreign exchange rate risk management strategies.

3. Review credit risk management strategies for international trade
   3.1 Assess risk for non-payment.
   3.2 Evaluate relative bargaining positions and credit risk ratings of parties in international trade transactions.
   3.3 Establish options for a payment mechanism.

4. Investigate the application of payment
   4.1 Investigate invoice discounting techniques.
   4.2 Investigate the application of “factoring” and “forfeiting” to the payment procedure.
   4.3 Investigate penalty arrangements for late payment.
   4.4 Investigate options for non-payment transactions.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- analytical and information gathering skills to:
  - research and analyse banking services
  - conduct comparative analysis
- communication skills to:
  - relate to people from difference cultures
  - question information
  - clarify issues
  - report on findings and processes
- risk management skills to:
  - identify
  - assess
  - monitor
- mitigate the impact of risk to international business

Required Knowledge

- core banking services including:
  - financial
Section C Units of competency

VU21669 Review the financial structures and processes in international trade

- loans and credit facilities
- cheque/savings accounts functions

- basic economic concepts including:
  - supply/demand
  - market/planned/mixed economy
  - how the market works
  - market forces
  - Porters 5 Forces

- history of banking and international banking

- clearinghouse functions, such as:
  - IATA
  - commodity exchanges

- Reserve Bank of Australia

- “Spread” (bank profit margin in currency exchanges)

- exchange rates

- purchasing power parity

- bank published schedules and forward margins

- trade weighted baskets

- politico-economic trends in international finance

- sources of finance

- exchange rate contracts

- hedging

- credit risk and insurance

- countertrade and variations

- methods of payment

- bills of exchange

- documentary levels of credit

- factoring, forfeiting and confirming

- cargo insurance

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Pricing methods** may include:

- competitor prices
- customer perception of products and services
• customer benefits of products and services

• variable costs including:
  o cost of producing, procuring or generating products and services
  o import costs

• overheads or fixed business costs:
  o rental
  o communications

**Total landed cost** may include

• Harmonised System Codes (HS Codes)

• Harmonised Tariff Codes (HTS Codes):
  o cost of fuel
  o shipping costs
  o currency valuations

**Methods of payment** may include:

• clean payment (payment in advance)

• open account (goods are shipped by the exporter and received by the importer prior to payment)

• documentary collections (where banks serve as agents to facilitate the payment process and literally collect payment or ensure acceptance of the documents).

• documentary credits or letters of credit:
  o irrevocable
  o revocable
  o confirmed
  o transferable
  o telegraphic transfer

**Purchasing power parity (PPP)** may include:

• prices of tradeable goods

• exchange rate changes

• comparing living standards across countries

• purchasing power in order to re-establish parity

**Foreign exchange rate** may include:

• currency conversion

• reduction of foreign exchange risk

• foreign exchange rate or FX rate

• forward exchange rate

• spot rate
• forward margin
Trade-weighted baskets may include:
- a crude measure of a country’s international “competitiveness”
- a useful measure to aggregate diverging trends among partner currencies

Balances of trade may include:
- a positive difference in value between the total exports and total imports of a nation during a specific period of time (trade surplus)
- a negative difference in value between the total exports and total imports of a nation during a specific period of time (trade deficit)

Interest rate differentials may include:
- positive interest rate differentials
- negative interest rate differentials based on the dollar asset minus the interest rate on a comparable foreign asset

Foreign exchange rate risk management may include:
- forward exchange contract
- foreign currency options
- currency options
- hedging techniques to avoid market fluctuations:
  - selling stock in a futures contract
  - insurance
  - swaps
  - options
  - over the counter and derivative products

Non-payment may include:
- buyer defaults
- bank dishonour
- Government impediment/embargo

Credit rating may include:
- an insurance policy associated with a specific loan
- an insurance policy associated with a line of credit
- an insurance policy that pays back some of any monies owed should certain things happen to the borrower, such as:
  - death
  - disability
  - unemployment
- an insurance policy that pays back all of any monies owed should certain things happen to the borrower, such as:
  - death
  - disability
Invoice discounting techniques may include:

- forfeiting
- firms engaging in trade in very large capital items like commercial aircraft
- firms engaging in factoring – buying foreign accounts receivable at discount from face value

Non-cash transactions may include:

- Countertrade such as buybacks, other forms of compensation trading

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

Competency must be demonstrated in the ability to perform consistently at the required standard. In particular, assessors should look to see that the candidate demonstrates knowledge and skills to analyse international trade finance systems within Australia and in a global context. It includes examining and evaluating the structures and processes of financing international import and export transactions in the banking system, including optional finance models and practices that are available to international businesses.

A person who demonstrates competency in this unit must provide evidence of the:

- analysis of the banking and non-banking finance system and its operating environment within Australia and in a global context
- analysis of purchasing power parity in relation to exchange rates
- review of credit risk management strategies for international trade; evaluation of the role of confirming houses, freight forwarders, banks, customs agents.

Evidence should be gathered over a period of time in a range of actual or simulated international business environments.

Context of and specific resources for assessment

Assessment of performance requirements in this unit should be undertaken within the context of the international business framework. Competency is demonstrated by performance of all stated criteria, including the Range Statements applicable to the workplace environment.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. All participants may take advantage of electronic media to generate and submit reports or presentations to support each performance criterion either individually or holistically.

Assessors should consider the assessment of salient knowledge, skills and content understanding through specific or combined electronic media, workplace contact or mentoring.
The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

Resources required for assessment include:

- Access to a relevant workplace or closely simulated international business environment
- Accessibility to suitable computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.

**Method of assessment**

- Project work
- Written reports supported by practical assignments or tasks for individual assessment
- Observation of workplace practice supported by personal interviews
- Practical display with personal interview, presentations or documentation
- Case studies

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
VU21670 Research and report on the feasibility of import or export venture

Unit Descriptor
This unit describes the skills and knowledge required to research and report on identifying, selecting and targeting a product or service for import or export to a country or region of choice.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills
This unit contains Employability Skills.

Application of the Unit
This unit supports the work of those with responsibility for import or export management and resource allocation and provides leadership within international business organisations.

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
<tbody>
<tr>
<td>Investigate the import or export of a product or service.</td>
<td>1.1 Undertake market research, data collection and international trade analysis for suitable products or service in accordance with research and organisational requirements.</td>
</tr>
<tr>
<td></td>
<td>1.2 Analyse and evaluate market requirements by investigating relevant sources for a product or service.</td>
</tr>
<tr>
<td></td>
<td>1.3 Analyse regulatory requirements that impact on the importation or exportation product or service.</td>
</tr>
<tr>
<td></td>
<td>1.4 Investigate issues that affect export or import for a product or service.</td>
</tr>
<tr>
<td>Establish supportive risk management strategies.</td>
<td>2.1 Develop risk management framework for an import or export venture project.</td>
</tr>
<tr>
<td></td>
<td>2.2 Establish relevant external relationships and negotiations for the trade of the product or service.</td>
</tr>
<tr>
<td></td>
<td>2.3 Develop risk mitigation strategies with the internal and external partner (s) for the import or export of the product or service, in accordance with legal and organization requirements</td>
</tr>
</tbody>
</table>
3. Validate the feasibility of research outcomes for an import or export venture.

3.1 Document data collection, analysis, research techniques and feasibility of the import or export venture of the selected country or region.

3.2 Present feasibility study to stakeholders using current professional industry communication strategies.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- ability to develop risk management/risk mitigation strategies to manage risks
- literacy skills to:
  - interpret product/service information for import/export venture
  - analyse and summarise product/service information specified formats, make recommendations based on information gathered Communication skills including conducting interviews, questioning, clarifying, reporting
- communication skills to:
  - liaise with stakeholders
  - conduct interviews
  - present information and research relating to the viability of an import or export venture
- numeracy skills to analyse statistical information
- technological skills to use computers to collect, analyse and document import and export data.
- analytical skills to:
  - research, gather information and investigate the viability of import or export ventures
  - assess risks.

Required Knowledge

- international marketing and trends
- relevant national and international legislation, including:
  - Customs Act,
  - INCOTERMS, international standards for marking cargo and labelling and marking hazardous goods
- trade modernisation legislation:
  - Customs Legislation Amendment and Repeal Act
  - Import Processing Charges Act
  - Customs Depot Licensing Charges Amendment Act
Trade Practices Act, Contract law
Warsaw convention
  - World Trade Organisation determinations
Australian Customs Service and the regulation of all imports
cultural aspects relevant to international markets researched
market research techniques and tools
organisational templates/formats for reporting outcomes of research
international protocols and finance that impacts on import and export
import/export procedures, practices, processes and regulations
import/export terminology, documentation and costing

RANGE STATEMENT
The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Market research** may include:
- investigating consumer purchasing trends and preferences
- researching relevant sources, including:
  - commercial sources of market intelligence provided by a specialists and consultants
  - information from Austrade and state/territory government agencies, chambers of commerce
  - published materials
  - potential customers
  - suppliers
  - competitors
  - industry stakeholders
  - databases
  - internet
  - ABS or other official statistics
  - business advisory services
  - professional/trade associates and publications
  - financial institutions
  - industry planning information
  - Sales figures
  - research reports
International trade analysis may include:

- using appropriate data collection approaches to collect information such as:
  
  - literature searches
  - focus groups
  - case study investigation
  - one-on-one interviews in person or by telephone
  - structured or informal small group discussions
  - supervised or unsupervised completion of questionnaires or other survey tools by respondents
  - use of questionnaires and other tools by staff to record data about enterprise activities
  - personal observation of performance
  - surveys
  - demographic data

- analysing the following issues:
  
  - major competitors in the industry and their market share
  - current concerns of the industry
  - government regulations affecting the industry (existing and proposed)
  - trends in the industry
  - ease of entry including regulatory and invisible barriers
  - distribution systems and profit margins
  - availability of infrastructure such as:
    - cold storage facilities
    - quarantine or transport and logistics systems
  - insurance requirements for:
    - human resources
    - inventory
    - plant
    - equipment
  - budgetary considerations for development, implementation and operation
Research and organisational requirements may include:

- need for respondent to meet demographic or psychographic (attitudes/values/beliefs/behaviours) criteria
- need for respondent to represent an organisation, have specific expertise or knowledge, or meet other criteria
- requirements for statistical validity (or not) in sampling
- quality assurance policy and procedures
- legal requirements

Relevant sources may include:

- customer need and demand for the product
- cultural factors that will impact on sales
- size of market segments
- seasonal variations
- current availability of products or services
- average disposable income figures
- competitors already in the designated market
- perceptions of potential consumers
- local alternatives to product or service
- attitudes towards Australia and Australian products or services
- imports versus local sales
- demographics of decision maker/purchaser

Regulatory requirements may include:

- legislation, code and standards relevant to the international business workplace environment: may include:
  - Trade Practices Act
  - Customs Act
  - Contract Law
  - Convention on International Trade in Endangered Species (CITES)
  - Sales of goods legislation
  - WHS legislation and that related to the import of goods and services, if relevant
- product knowledge about goods and services being supplied, including expected WHS performance
- Australian Customs Service requirements
- regulations that may affect importation or exportation of the type of imported or exported goods
• import permit or approvals, for e.g. Dangerous Goods, Chemicals and Poisons,

• export control which includes permit, approvals or clearance to export certain goods and must be issued by the appropriate authority or agency. It also prohibits the export of certain goods either absolutely or conditionally; and adequately record country’s international trade.

• restrictions that may affect import, for e.g. special labelling requirements, special health requirements, quotas and fumigation, customs requirements, prohibited & restricted goods and quarantine requirements

**Issues** may include:

• different cultures may influence business decisions and processes in different ways

• political instability in international markets may pose new challenges to business

• different legal systems and the need to comply with legal requirements in all elements of the export and import process

• communication issues relating to the remoteness from export markets and customers

• protecting intellectual property in overseas markets

• exporting places extra pressure on business resources

• additional funding required for export, trading terms and dealing in foreign currencies may place pressure on cash flow and financial situation.

• contract implications and their legal enforceability

• restrictions that may affect import including:
  
  o special labelling requirements
  
  o special health requirements
  
  o quotas and fumigation
  
  o customs requirements
  
  o prohibited & restricted goods
  
  o quarantine requirements

**Risk management framework** may include:

• the identification and objective assessment of a range of factors that pose a risk to the organisation’s viability and capacities to achieve its purpose and strategic objectives, including:
  
  o human resources
  
  o finances
  
  o contracts
  
  o facilities and equipment
client satisfaction
- WHS and reputation.
- copyright and intellectual property rights are also worthy of consideration when considering as possible risks
- analysing risk factors to establish their likelihood and impact
- assign a relative rating to the risk factor
- developing and implementing mitigation strategies for managing the risk

**Risk mitigation strategies** must include:
- roles and responsibilities for developing, implementing and monitoring the strategy
- timelines
- conditions present in order for risk level to be acceptable
- resources required to carry out the planned actions

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence gathered is to be related to:
- undertaking market research to identify trends in the target market to inform decision-making within the organisation
- developing risk mitigation strategies for a product/service
- developing a feasibility study for the target market that incorporates:
  - research techniques employed across the project
  - data collation and analysis
  - the criteria on which product or service and country/region/sector was/were selected
  - supportive market requirements for product or service
  - the viability of implementation of the product/service into the country/region/sector selected.
- current knowledge of relevant trade legislation and international marketing trends.

**Context of and specific resources for assessment**

Assessment of performance requirements in this unit should be undertaken within the context of the international business framework. Competency is demonstrated by performance of all
stated criteria, including the Range Statements applicable to the workplace environment.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. All participants may take advantage of electronic media to generate and submit reports or presentations to support each performance criterion either individually or holistically.

Assessors should consider the assessment of salient knowledge, skills and content understanding through specific or combined electronic media, workplace contact or mentoring.

The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

Resources required for assessment include:

- Access to a relevant workplace or closely simulated international business environment
- Accessibility to suitable computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.

**Method of assessment**

- Project work covering a product or service for import or export in the international environment. The project assessment items must be submitted in advance to the assessor(s) in a documented form, and be presented orally to the assessor(s) to expand and clarify the key findings.
- The presentation must make use of current technology and presentation skills.
- Evidence should be gathered over a period of time in a range of actual or simulated international business environments.
- Written reports supported by practical assignments or tasks for individual assessment
- Observation of workplace practice supported by personal interviews
- Practical display with personal interview, presentations or documentation
- Case studies

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
VU21671 Apply contract law to international business activities

Unit Descriptor
This unit describes the skills and knowledge required to analyse contract law relevant to international business activities.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills
This unit contains Employability Skills.

Application of the Unit
This unit supports the work of those with responsibility for international business management and provide leadership in the application of contract law within international business activities.

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge, and their level, required for this unit.

**Required Skills**

- information gathering skills to research:
  - sources of law
  - social and cultural factors of selected countries or regions impacting legal issues
  - current legal trading issues
- analytical skills to investigate organisational legal implications
- attention to details and accuracy
- communication skills to:
  - convey information to colleagues
  - complete documentation related to contract law
  - maintain workplace records and documentation
  - report on organisational compliance requirements
- high level language and literacy skills to read and interpret legal documents
- problem solving skills to:
  - manage resource requirements
  - rectify breaches of contract
- technological skills to select appropriate information systems and procedures for documentation

**Required Knowledge**

- traders:
  - sole traders
  - partnerships
  - trusts
  - companies
  - subsidiary companies
  - agencies
  - distributorships
Section C: Units of competency

VU21671 Apply contract law to international business activities

- baileeships
- confirming houses
- joint ventures

- hire purchase agreements:
  - relevant states/territories, national or international laws
  - mortgages:
    - real and personal property
    - leases
    - ownership
    - rights of mortgagor
    - foreclosures
    - sales
  - franchises
  - consignees
  - licence agreements including:
    - protection of intellectual property
    - copyright
    - patents and trademarks

- responsibilities, duties and liabilities of all key stakeholders
- International Chamber of Commerce, Incoterms 2000
- GATT articles and implications
- WTO responsibilities and roles
- contracts for importing and exporting
- relevant aspects of contracts:
  - entering into legal relationship
  - legality of the purpose of the contract
  - consent by parties involved
  - capacity for the contract to be adhered to
  - form of the contract
  - offer and acceptance of a contract
  - key clauses in International contracts
  - conventions associated with contracts
  - requirements and considerations related to formal and informal contracts
  - valid, illegal and unenforceable contract
methods of termination of contracts:
   - by agreement
   - breach of contract
   - unacceptable performance in relation to contract conditions
   - operation of contract within the law

remedies for breaches of contract including:
   - injunctions
   - damages and rules for assessment of damage
   - time/period limitations
   - quantum merit

- legislation, codes of practice and national standards, including:
  - Trade Practices Act
  - Contract Law
  - WHS
  - consumer protection legislation
  - legislation related to the import of goods and services, where relevant.
  - relevant international laws of trade and differences in the legal system both domestic and international
  - details of organisational purchasing strategies:
  - organisational KPIs/goals
  - product knowledge about the goods and services being supplied including:
    - required WHS
    - performance standards
    - free trade agreements

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italics** wording in the performance criteria is detailed below.

**Characteristics of business organisations** may include:

- sole traders
- partnerships
- trusts
- companies
- subsidiary companies
- agencies
- distributorships
- baileeships
- confirming houses
- joint ventures

**Responsibilities and legal requirements** may include:

- national and international legislation and regulations affecting business operations such as:
  - business registration
  - franchising and franchise agreements
  - agencies
  - licensing, including:
    - real estate agents
    - customs brokers
  - WHS and environmental legislation
  - copyright, patent trademark and design regulations
  - codes of practice
  - consumer legislation
  - Law of Torts (duty of care)
  - contract law
  - relevant taxation requirements/obligations for business
  - registration details, including:
    - tax file number
    - Australian Business number (ABS)
    - GST registration
    - PAYG
    - withholding arrangements
      - partnership agreements
      - company statutory books, including:
        - Register of Members
        - Register of Directors
        - Records of Minute Books
- Certificate of Incorporation

**Contracts** may include:

- agreements for one-off or ongoing supply of goods or services
- electronic or paper-based agreements
- agreements with:
  - Australian or overseas individuals or organisations
contractors
- corporations
- individuals
- government agencies
- memoranda of understanding/agreement.

**Breaches of contract** may include:
- unacceptable performance in relation to contract conditions
- lack of expertise to fulfil contract specifications
- changes in circumstances resulting in inability to fulfil contract
- remedies for breaches, including:
  - injunctions
  - damages and rules for assessment of damage
  - time/period
  - limitations and quantum merit

**Sources of law** may include:
- judicial and legislative
- international trade agreements and treaties
- international law
- legislation applicable to supplier country.

**Australia’s trading partners** may include:
- People’s Republic of China
- Thailand
- Indonesia
- Singapore
- Japan
- Taiwan
- Korea
- USA
- Europe

**Social and cultural factors** may include:
- religion
- values, beliefs and attitudes
- perception of Australia
- business processes and practices within supplier country
- culturally appropriate communication styles
**Compliance requirements** may include:

- international trade agreements and treaties
- international law
- legislation applicable to supplier country
- fumigation and quarantine regulations
- labelling requirements
- separation of goods to comply with Australian regulations such as Dangerous Goods Act
- legislation and regulations related to prohibited imports
- tariffs and quotas
- business processes and practices of supplier country

**Sources of review** may include:

- agencies and representatives
- commercial sources of market intelligence provided by a specialists and consultants
- information from Austrade and state/territory government agencies, chambers of commerce
- industry journals
- industry networks
- databases
- internet
- official statistics
- business advisory services
- professional/trade associates and publications
- financial institutions
- Australian Customs Service

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence gathered is to be related to:

- researching and analysing characteristics and relevant legal requirements of international business entities
- analysing contracts relevant to domestic and international business, including: breaches of contract, penalties for breaches of contract and termination of contracts
• analysing aspects of international business organisations including the legal processes, the socio-cultural factors impacting on the trading relationships, and monitoring of changes to legal requirements

• knowledge of trading and contractual arrangements for international business.

• Evidence should be gathered over a period of time in a range of actual or simulated international business environments.

Context of and specific resources for assessment

Assessment of performance requirements in this unit should be undertaken within the context of the international business framework. Competency is demonstrated by performance of all stated criteria, including the Range Statements applicable to the workplace environment.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. All participants may take advantage of electronic media to generate and submit reports or presentations to support each performance criterion either individually or holistically.

Assessors should consider the assessment of salient knowledge, skills and content understanding through specific or combined electronic media, workplace contact or mentoring.

The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

Resources required for assessment include:

• Access to a relevant workplace or closely simulated international business environment

• Accessibility to suitable books, journals and papers together with computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.

Method of assessment

• Project work

• Written reports supported by practical assignments or tasks for individual assessment

• Observation of workplace practice supported by personal interviews

• Practical display with personal interview, presentations or documentation

• Case studies

Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
### VU21672 Analyse and report on economic trends in the global market

#### Unit Descriptor
This unit describes the performance, skills and knowledge required to manage economic trends by analysing data from global market.

*No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.*

#### Employability Skills
This unit contains Employability Skills.

#### Application of the Unit
This unit applies to individuals with managerial responsibility for analysing and interpreting international economic trends, market and political changes. The purpose and the intention of reporting on these trends are to assist business to plan and make sound local and international transactions.

<table>
<thead>
<tr>
<th>ELEMENT</th>
<th>PERFORMANCE CRITERIA</th>
</tr>
</thead>
</table>
| 1. Research local and international markets | 1.1 *Research and explore* sources of data on global markets.  
1.2 Evaluate the *information gathered* to ensure that the scope of the international arena is sufficiently broad.  
1.3 Use *statistical data* of Australia and international markets for trend interpretation.  
1.4 Review and evaluate commercial information for quality and value for money. |
| 2. Analyse economic trends in global markets | 2.1 Analyse economic trends within Australia and international environments.  
2.2 Perform *qualitative analysis* of global market information as a basis of economic trends.  
2.3 Research and review all pending and in progress legislation relative to all activities in local and International markets.  
2.4 Examine and assess the implications and consequences of impending legislation changes to both local and international economic positions. |
| 3. Report on all the data | 3.1 Prepare a report and interpret data for *written or visual presentation* |
REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- technology skills to use a range of software to collect and analyse international data.
- analytical skills to profile segments, local and other countries.
- evaluation and assessment skills to investigate data.
- planning and organisational skills to undertake the process of researching the relevant data.
- numeracy skills to:
  - analyse statistical information
  - analyse economic trends
  - make recommendations based on value for money
- literacy skills to:
  - write complex and varied reports and presentations
- analyse and summarise information into specified formats, make recommendations based on information gathered.

Required Knowledge

- general and economic knowledge of international issues that may have an impact on economic trends effecting all global markets.
- overview knowledge of relevant legislation from all levels of government that affects business transactions, including:
  - Customs Act 1901
  - Customs Tariff Act 1995
  - Tariff Concession Orders
  - International Commercial Terms
  - Customs Legislation Amendment and Repeal Act
  - Importing Processing Charges Act
  - Customs Depot Licensing Charges Amendment Act
  - Trade Practices Act
  - Warsaw Convention
  - World Trade Organisation
- sources of international market information.
- techniques for researching, analysing relevant market data.
• variety of statistical techniques for use in analysing data.

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Research and explore** may include:

- formal research studies
- participating in professional development and other learning opportunities
- reading current literature, including newspapers, journals, industry magazines
- internet research
- participating through conferences, seminars and relevant industry association

**Information gathered** may include:

- information relating to all global markets, including:
  - capital markets
  - credit ratings and rates
  - equities
  - foreign exchange
  - futures and options
  - money markets
- political information, including:
  - wars
  - internal conflicts
  - elections
- international embargos

**Statistical data** may include:

- government publications re interest rates, deregulation, new legislation
- CPI indexes
- Capital Accounts Data
- GDP figures for international countries
- OECD Data
- G20 Summit data
- census Data
- international benchmarks
- foreign exchange rates
- local and International exchanges (Nasdaq, Ftse, Asx)
Qualitative analysis may include:
- time series analysis
- changes in technology
- demographic trends
- ecological/environment trends
- economic trends (local, regional, national, international)
- industrial trends
- analysing and evaluating actions and policies
- exploring implications and consequences

Written or visual presentation may include:
- graphical data including pie/bar/column graphs.
- desktop published reports of data
- material using various media including:
  - video
  - audio
  - DVD
  - CD Rom
  - Photos
  - Slides
- PowerPoint presentations.

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence gathered is to be related to:
- conducting research on a range of global markets
- analysing, interpreting and reporting on sourced data
- designing presentations on the relevant data
- knowledge of research techniques and statistical analysis methods.

Context of and specific resources for assessment

Assessment must ensure use of current data and information in all areas.
### Method of assessment

A range of assessment methods should be used to assess practical skills and knowledge. The following examples are appropriate for this unit:

- Evaluation of research undertaken by the candidate in terms of scope, depth and the level of critical thinking applied.
- Direct observation of candidate debating issues arising from the research into economic trends in the global market arena.
- Oral or written questioning to assess knowledge of economic trends.

### Guidance information for assessment

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
VU21673 Manage cultural communications

Unit Descriptor
This unit describes the skills and knowledge required to investigate culture, challenges and negotiations in international trade. It includes investigating the socio-economic and cultural factors of a selected country or region, and analysing their impact on international business infrastructure, trading characteristics and investment opportunities. This unit also covers the knowledge and skills required to apply culturally appropriate communication styles to an international business relationship.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills
This unit contains Employability Skills.

Application of the Unit
This unit generally applies to those with responsibility for international business management and provide leadership in the management of cultural communications within international business relationships.

<table>

</table>

1. Establish communication protocols for international business relationships.

1.1 Determine relevant language proficiency thresholds and culturally appropriate communication skills for the business relationship with the selected country or region.

1.2 Verify and apply salutatory and accepted non-verbal behaviours within a social and/or business context for a selected country or region.

1.3 Identify and establish appropriate roles of interpreters in the context of business and social activities.

2. Analyse culturally appropriate social norms.

2.1 Analyse acceptable social and cultural behaviours for a selected country or region, using available information sources.

2.2 Analyse culturally appropriate non-verbal behaviours for a selected country or region, using available information sources.

2.3 Develop relevant and appropriate strategies to minimise ethnocentrism in social and cross cultural contexts.

3. Analyse the impact of social and

3.1 Identify major negotiation styles within the international forum.
Manage cultural communications

Section C: Units of competency

3.2 Establish and apply appropriate cultural and cross cultural norms and values in communication with international clients.

3.3 Identify examples of ethnocentric behaviour.

3.4 Analyse concepts of “face” and “harmony” to identify implications for international business activities.

3.5 Investigate key religious or social sensitivities for strict observance.

3.6 Investigate and apply relevant esoteric regional customs and laws within an international business context.

4. Establish strategies and procedures for travel and subsistence in a selected country or region.

4.1 Identify sources of information and support for in country visitors related to international business activity.

4.2 Identify relevant health, safety and security implications related to international business activity for in country visitors.

4.3 Source diplomatic, consular and communication procedures for in country visitors related to international business activity.

5. Analyse a business or trading relationship in a selected country or region.

5.1 Identify major business or trading in a selected country or region.

5.2 Identify trade agreements or preferences of a selected country or region.

5.3 Analyse business and trading venture of a selected country or region to identify its positive and negative elements, which impact on international business activity.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- cross-cultural communication skills for international business practices including:
  - questioning, clarifying, reporting
  - non-verbal, physical contact and restrictions
  - interpersonal skills
- negotiation skills to secure an agreement between parties with different needs and goals
- conflict resolution
- numeracy skills for statistical data analysis
ability to relate to people from a range of social, cultural and ethnic backgrounds, and physical and mental abilities.
• **Required Knowledge**

  • government structures and other organisations available for advice and direction, government policies
  
  • forms of business venture (joint, foreign owned enterprises, partners) including:
    - legal requirements, registration of business, taxation, business and trading documents
    - business networking
    - marketing strategies
    - resourcing and material use, role of consultants, entrepreneurial ventures
    - key milestones in the regional and international environment
  
  • investment and trade including:
    - investment opportunities and policies, laws for governing foreign investments, capital investments, currency policies and trends, investment returns
    - import and export patterns
    - economic performance and trends, forecasting and key indicators
    - trading relationships and agreements
    - foreign trade patterns between other regions/countries
    - interaction with financial markets
    - economic leadership in the international environment
  
  • communication lines of communication including:
    - cross cultural business protocols and ethnics
    - verbal and non verbal communications
    - interpreters – roles, sourcing and availability, situations in which interpreters are appropriate
  
  • historical evolution – social and cultural norms including:
    - characteristics of society and culture
    - social hierarchies, social relationships, gender issues
    - work units, hours, public holidays and festivals, religious observances

**RANGE STATEMENT**

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Culturally appropriate communication skills** may include:

- forms of address used for names
- eye contact
- distance between communicating parties
• differences in assertiveness across cultures and individuals
• voice tone
• choice of medium for communication
• culturally determined notions of polite behaviour

**Non-verbal behaviours** may include:
• unspoken behaviour
• kinesics or body language
• facial expression
• hand gesture
• body posture
• eye contact
• distance between communicating parties

**Strategies to minimise ethnocentrism** may include:
• informing work colleagues about relevant cultures
• encouraging work colleagues to interpret and evaluate behaviour and objects of reference from a different cultural point of view

**Negotiation** may include:
• recognising the value of a relationship and have a mutual desire to continue it
• preparing effectively for the negotiation encounter by researching all relevant facts and cultural issues
• participating actively in the process
• showing consideration and acceptance of each other's perspectives, values, beliefs and goals
• Separating personality from the issue involved
• focussing on interests rather than positions
• generating a variety of possibilities before choosing a option.
• ensuring results are based on some objective standard
• working together to develop a solution everyone can accept

**Esoteric regional customs and laws** may include:
• customs and laws confined to particular persons, group or culture

**Sources of information** may include:
• advice provided by Austrade and state/territory government agencies, chambers of commerce
• trade and business publications
• staff within own organisation from same cultural group as international clients
• academic publications and personnel
• bilateral or multilateral treaty or other enforceable compact committing two or more nations to specified terms of commerce, usually involving mutually beneficial concessions
• general agreement of Tariffs and Trade (GATT) – a multilateral trade treaty among governments, embodying rights and obligations that constitute codes that are intended to help reduce trade barriers between signatories to promote trade through tariff concessions.

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence gathered is to be related to:

• applications of the socio economic and cultural practices of a selected country or region
• analysis of the impact of social and behaviour practices on international business activities including the business infrastructure, trading characteristics and investment opportunities
• analysis, identification, establishment and application of culturally appropriate social and behaviour norms and practices to an international business relationship
• developing strategies and procedures for travel and subsistence in a selected country or region
• analysis of an international trading relationship in a selected country or region including its trade agreements or preferences and strength and weaknesses
• knowledge of cross-cultural business communication techniques.
• Evidence should be gathered over a period of time in a range of actual or simulated international business environments.

Context of and specific resources for assessment

Assessment of performance requirements in this unit should be undertaken within the context of the international business framework. Competency is demonstrated by performance of all stated criteria, including the Range Statements applicable to the workplace environment.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. All participants may take advantage of electronic media to generate and submit reports or presentations to support each performance criterion either individually or holistically.

Assessors should consider the assessment of salient knowledge, skills and content understanding through specific or combined electronic media, workplace contact or mentoring.
The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

Resources required for assessment include:
- Access to a relevant workplace or closely simulated international business environment
- Accessibility to suitable computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.

**Method of assessment**
- Project work
- Written reports supported by practical assignments or tasks for individual assessment
- Observation of workplace practice supported by personal interviews
- Practical display with personal interview, presentations or documentation
- Case studies

**Guidance information for assessment**
Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
**VU21674 Plan and manage international freight transfer**

**Unit Descriptor**
This unit describes the skills and knowledge required to plan, develop and manage international freight transfer in accordance with relevant regulatory requirements and workplace procedures, including the ADG and IDG codes. This includes analysing freight transfer requirements, planning and establishing systems and processes for international freight transfer, monitoring and managing systems and processes for international freight transfer.

*No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.*

**Employability Skills**
This unit contains Employability Skills.

**Application of the Unit**
Work must be carried out in compliance with the relevant Australian and international regulations, standards and codes of practice, including the ADG and IDG Code.

This unit generally applies to those with responsibility for resource management and allocation and provides leadership within international freight transfer organisations.

processes for international freight transfer.

2.2 Evaluate and establish appropriate **systems and processes** for the management of the international freight transfer including suitable risk analysis.

2.3 Determine **resource requirements** for the international freight transfer.

2.4 Establish quality standards and procedures for proposed international freight transfer processes in accordance with workplace procedures.

2.5 Develop implementation plan for the management of international freight transfer in accordance with relevant regulatory and organisational requirements.

3. Monitor and manage systems and processes for international freight transfer.

3.1 Monitor international freight forwarding operations against identified quality standards and compliance with Australian and international regulatory requirements.

3.2 Identify non-compliance with quality standards or regulatory requirements and rectify any identified problems.

3.3 Design and implement processes to track customer satisfaction with international freight.

3.4 Act upon customer concerns and feedbacks for service improvements in accordance with workplace procedures.

3.5 Complete reports and other required documentation related to international freight transfer operations in accordance with workplace procedures.

3.6 Monitor and apply any changes in Australian and international **regulations and codes of practice** relevant to international freight transfer to ensure ongoing compliance of workplace processes and systems.

**REQUIRED SKILLS AND KNOWLEDGE**

This describes the essential skills and knowledge, and their level, required for this unit.

**Required Skills**

- communication skills to:
  - convey information in order to manage international freight transfer operations
  - complete documentation related to the management of international freight transfer operations
  - maintain workplace records and documentation when managing international freight transfer operations
• language and literacy skills to read and interpret instructions, procedures, information and labels
• leadership skills to provide guidance to others when managing international freight transfer operations
• cultural awareness to adapt appropriately to cultural differences in the workplace, including:
  o modes of behaviour
  o interactions with others
• planning skills to:
  o develop systems and activities when managing international freight transfer operations
  o monitor work activities in terms of planned schedule
  o modify activities depending on differing operational contingencies, risk situations and environments
• problem solving skills to:
  o apply precautions and required action to minimise, control or eliminate hazards that may exist during work activities
  o rectify problems, faults or malfunctions in accordance with regulatory requirements and workplace procedures
  o manage differences in freight and systems in accordance with standard operating procedures
• technological skills to select appropriate information systems and procedures when managing international freight transfer operations.

**Required Knowledge**

• relevant Australian and international regulations, codes of practice and legislative requirements including local and international freight regulations
• relevant WH&S and environmental procedures and regulations
• procedures for the identification and interpretation of requirements of current and potential clients
• procedures for the identification and evaluation of information needed to manage the international transfer of freight
• procedures for reviewing options for international freight transfer systems
• procedures for liaising with relevant Australian and international contacts using appropriate technology
• procedures for establishing and monitoring suitable international freight transfer operations
• operational processes impacting on relevant work systems, resources, management and workplace operating systems
• contacts and sources of information/documentation needed when managing systems for the international transfer of freight
• quality and customer service policies and procedures
• relevant permit and licence requirements
• application of relevant Australian standards and associated certification requirements
• operational requirements for the safe transfer and storage of dangerous goods and hazardous materials
• relevant workplace documentation procedures applicable to the international transfer of freight

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**International freight transfer** may include:
- warehousing, storage, transport or distribution industry work environments including:
  - bulk handling
  - dangerous goods
  - freight forwarding sections

**Information** may include:
- type, capacity and compatibility of cargo
- agreed delivery times and routing schedules
- pick-up and drop-off points
- specified carrier/mode of transport
- agreed cost structure
- internal or external

**Workplace procedures** may include:
- company procedures
- enterprise procedures
- organisational procedures
- established procedures

**Systems and processes** may include:
- international freight forwarding protocols and procedures
- workplace operations
- authorities and permits
- hours of operation
- relevant regulations

**Resource requirements** may include:
- human resources required to organise international freight transfer including
  - assigning
  - recruiting
  - training of staff
- office, computer and communications equipment
**Regulations and codes of practice** may include:

- regulations and codes of practice for the international freight transfer
- Australian and international regulations and codes of practice for the handling and transfer of dangerous goods and hazardous substances including:
  - Australian and International Dangerous Goods codes (ADG and IDG)
  - Australian Marine Orders and the International maritime Dangerous Goods Code
  - IATA Dangerous Goods by Air Regulations
  - Australian and International Explosives Codes
  - relevant regulations for the import and export of cargo
  - Australian and international standards and certification requirements
  - relevant State/Territory WH&S legislation
  - relevant State/Territory environmental protection legislation

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence gathered is to be related to:

- researching to determine freight transfer requirements
- developing systems and process for a targeted international freight transfer
- monitoring and managing the international freight transfer systems and processes
- knowledge of relevant legislation, operational procedures and processes for international freight.

Evidence should be gathered over a period of time in a range of actual or simulated international business environments

**Context of and specific resources for assessment**

Assessment of performance requirements in this unit should be undertaken within the context of the international business framework. Competency is demonstrated by performance of all stated criteria, including the Range Statements applicable to the workplace environment.

Resources required for assessment include:
• Access to a relevant workplace or closely simulated international business environment
• Accessibility to suitable computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.

**Method of assessment**

Assessment methods may include:

• Project work
• Written reports supported by practical assignments or tasks for individual assessment
• Observation of workplace practice supported by personal interviews
• Practical display with personal interview, presentations or documentation
• Case studies

**Guidance information for assessment**

Holistic assessment with other units relevant to the industry sector, workplace and job role is recommended.
VU21765 Build cross cultural capability for business in Asia

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to build culturally appropriate planning and work practices that facilitate the development of Asian business capability.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills
This unit contains Employability Skills.

Application of the Unit
This unit applies to personnel who conduct or plan to conduct business activity in Asia. An understanding of the product or service integral to the proposed business is required.

The unit may relate to a small to medium size organisation or a significant business unit within a large enterprise.

<table>

| **1. Analyse essential features of Asian country-specific culture** | **1.1 Assess and review *relevant historical and geopolitical information* about Asian country or countries of proposed business activity.**  
**1.2 Assess and review traditional and contemporary social structures of the Asian country or countries of proposed business activity.**  
**1.3 Assess relevant business, product or service information in the Asian country or countries of choice.**  
**1.4 Research and present documentation on international business *legislation and controls* that impact upon business activity with the proposed Asian country or countries.** |
| **2. Apply understanding of Asian country-specific culture for business practices** | **2.1 Confirm understanding of proposed business activity in Asia to ensure consistency of interpretation and application.**  
**2.2 Arrange for information to be communicated to relevant personnel in appropriate business practices to build Asian business capability.**  
**2.3 Establish evaluation criteria to ascertain understanding, by relevant personnel, of Asian country-specific business culture and how it impacts upon practices.**  
**2.4 Explain *key business cultural elements* of Asian country or countries of proposed business activity.**  
**2.5 Workshop real or potential cultural workplace conflict with relevant personnel.**  
**2.6 Establish possible strategies for cultural maintenance of business practice refinement with Asian country or countries of proposed business.** |
3. Plan culturally appropriate work practices

3.1 Develop a vision statement or a business model for business activity with the intended Asian country or countries, incorporating the product or service that is integral to the business.

3.2 Document business practices that will enhance Asian business culture capability.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- research skills to:
  - analyse essential features of culture in question
  - how culture impacts upon business practices
- English language and literacy skills to:
  - read, interpret and communicate legislation, regulations, policies, procedures and guidelines relating to country-specific Asian business practices
  - communicate impartially and diplomatically with diverse stakeholders, including conducting open discussions
  - document country-specific cultural practices and how they impact upon business practices
- interpersonal skills to:
  - relate to overseas politicians and government representatives, and understand their influence in the commercial environment in Asia
  - consult and provide advice on Asian cultural issues
  - work with others and relate to people from a range of cultural, social and religious backgrounds
- planning skills to:
  - plan culturally appropriate Asian business practices
  - arrange for cultural information to be communicated to appropriate personnel.

Required Knowledge

- research methods to:
  - access material that is relevant to Asian business culture
  - conduct desktop research on:
    - Asian business culture
    - the product(s) or service(s) integral to the proposed business
- planning methods to:
  - plan activity related to the product or service integral to the proposed business
  - plan business activity in Asia
- relevant Asian country-specific history
- relevant Asian country-specific culture and how it relates to business practices
- relevant international trade related legislation, including:
VU21765 Build cross cultural capability for business in Asia  
Section C: Units of competency

- company law
- legal framework for foreign companies operation including:
  - registration requirements
  - tax regimes
  - setting up companies
  - interviews
  - representative offices
- relevant international trade agreements and treaties
- Asian world view, including religion and the dimension of holistic notion of culture
- product or service that is integral to the business
- Asian business ethics, including:
  - discretion
  - the importance of public perception
  - business card rituals
  - developing a trusting relationship
  - providing relevant information to the decision maker
  - the importance of discussing the technical details about product or service features.

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Relevant historical and geopolitical information** may include:
- overview of political and social history
- GDP composition, general economic circumstances and economic trends
- economic stability
- religion
- ethnic composition
- language
- business culture
- political system
- political stability
- allies
- population
- government controls
- alliances such as: ASEAN

**Legislation** may include:
- broad legal framework including:
  - parliamentary system
  - decree
  - law
• common law
• company law
• legal framework for foreign companies operation including:
  • registration requirements
  • tax regimes
  • setting up companies
  • interviews
  • representative offices
• international law
• international trade agreements and treaties, including:
  • bilateral or multilateral treaty or other enforceable compact committing two or more nations to specified terms of commerce, usually involving mutually beneficial concessions
  • general agreement of Tariffs and Trade (GATT) – a multilateral trade treaty among governments, embodying rights and obligations that constitute codes that are intended to help reduce trade barriers between signatories to promote trade through tariff concessions
  • Trade in Services (GATT TIS)
  • Free Trade Agreements

*Controls* may include:
• guarantees
• insurance
• codes of practice
• ethical principles
• copyright
• social responsibilities
• safety issues
• security breaches
• privacy breaches
• other strategies to minimise or transfer risk
• selection or rejection of particular payment methods
• specifying a particular currency for payment.

*Key business cultural elements* may include:
• discretion
• the importance of public perception
• business card rituals
• developing a trusting relationship
• not being too outspoken
• being perceptive about who the decision maker is (often in Asian cultures, in meetings the quiet people are the decision makers)
• the importance of discussing the details about product or service features
  (often Asian culture is technology centric whereas Western culture is often
  experience-centric)

• use of case studies to aid decision making

• business nuisances in Asian regions, including:
  o how meetings are run
  o how people relate to each other

• ethnic considerations, such as:
  o ethnic composition of workforces and issues relating to this
  o affirmative action programs
  o the role of the overseas Chinese in many Asian business cultures

• HR characteristics of the various Asian workforces

• sensitivity to religious norms:
  o expected business behaviours around religious traditions:
    – there are many considerations amongst Confucian, Islamic,
      Hindu, Christian and other religious observances that have an
      effect on business behaviour

• business power and authority and decision making in Asian business culture
  such as:
  o centralised business culture
EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence must be provided of the following:

- communicating with relevant personnel to facilitate information sharing about Asian country-specific business cultural practices
- documenting the essential features of Asian, country-specific culture and how it manifests itself on business practices
- documenting culturally appropriate work practices to build Asian business capability in relevant Asian region.

Context of and specific resources for assessment

Assessment of performance requirements in this unit should be undertaken within the context of Asian business capability.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. Participants may utilise media to generate and submit reports or presentations to support each performance criterion.

The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

Method of assessment

- Project work
- Written reports supported by practical assignments or tasks for individual assessment
- Observation of workplace practice supported by personal interviews
- Practical display with personal interview, presentations or documentation
- Case studies
- Essays and assignments

Resources required for assessment include:

- Access to a relevant workplace or closely simulated Asian business environment
- Accessibility to suitable books, journals and papers together with computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.
VU21766 Build networks and relationships for business in Asia

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to establish, maintain and improve business relationships and to actively participate in networks to support attainment of business outcomes in Asia.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills
This unit contains Employability Skills.

Application of the Unit
This unit applies to personnel who conduct or plan to conduct business activity in Asia.
The unit may relate to a small to medium size organisation or a significant business unit within a large enterprise.

</table>

1. Develop and maintain networks for business in Asia
   1.1 Use appropriate **network strategies** to establish and maintain relationships that promote the development of business opportunities in Asia.
   1.2 Identify and pursue network opportunities relevant to the proposed business to maximise a range of contacts.
   1.3 Participate in **professional networks and associations** to obtain and maintain personal knowledge and skills pertaining to business in Asia.
   1.4 Record and maintain relevant contacts and maintain an accessible database.

2. Establish and maintain relationships for business in Asia
   2.1 Develop and maintain relationships to promote benefits consistent with Asian organisational/client requirements.
   2.2 Develop **strategies to obtain ongoing feedback for business in Asia** from clients to monitor satisfaction levels.
   2.3 Seek specialist advice in the development of contacts in Asia where appropriate.
   2.4 Demonstrate commitment to the relationship by maintaining regular contact on business issues.
3 Promote the relationship for business in Asia

3.1 Develop strategies to represent and promote the interests and requirements of the relationship.

3.2 Use presentation skills that are appropriate to business in Asia to communicate the goals and objectives of the relationship.

3.3 Establish communication channels to exchange information and ideas that are central to the relationship.

3.4 Obtain feedback to identify and develop ways to improve promotional activities within available opportunities.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required skills

- research, analysis, evaluation and assessment skills to identify relevant business networks
- English language communication skills to:
  - liaise with others, share information, listen and understand
  - use language and concepts appropriate to Asian cultural differences
  - present to Asian clients
- interpersonal skills to:
  - to relate to people from diverse backgrounds
  - demonstrate empathy and cultural sensitivity
  - establish rapport and build relationships and networks in Asia
- planning skills to:
  - develop strategies to build and maintain networks and relationships in Asia
  - develop strategies to obtain feedback from clients.

Required knowledge

- characteristics of specific cultural groups, including:
  - religion
  - political and social knowledge of the proposed Asian region’s population
  - diversity
  - business expertise and business preferences
  - product/service preferences
- business networking nuances in Asian regions, including:
  - discretion
  - the importance of public perception
  - business card rituals
  - developing a trusting relationship
  - providing relevant information to the decision maker
  - the importance of discussing the technical details about product or service features
- existing Asian business networks, including:
• employer networks
• associations

• principles of communication theory, especially cross-cultural communication, including:
  • establishing rapport sharing perspectives
  • understanding business nuances
  • defining the issue
  • identifying interests
  • identifying negotiation styles and adapting to different negotiation styles
  • generating options
  • developing criteria for decision making
  • evaluating options
  • reaching agreement

• sources of information about communication protocols for relevant Asian cultural groups.
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. *Bold italicised* wording in the performance criteria is detailed below.

**Network strategies** may include:

- Asian business networks:
  - sources of support, including:
    - Austrade
    - State based trade promotion
    - inbound trade and investment organisations in target countries
  - clients and potential clients
  - business partners
  - business peers active in the markets
- association memberships, including:
  - bilateral business councils (in Australia and in Asia)
  - industry associations
  - professional associations
  - alumni networks
- conference participation, including:
  - in-country meetings, conferences, trade shows and marketing events
  - webinars
  - video-conferencing
  - teleconferencing
  - professional social networking
    - linked-in
    - contribution to blogs

**Professional networks and associations** may include:

- Asian associations
- advisory committees
- colleagues
- committees
- government agencies
- internal/external customers
- lobby groups
- local inter-agency groups
- professional/occupational associations
- project specific ad hoc consultative reference groups
- country-specific suppliers
- work teams.
**Strategies to obtain ongoing feedback for business in Asia**

may include:

- complaints handling procedures
- follow-up contact:
  - face to face
  - on-line
  - telephone
- client surveys
- contact with lapsed clients to re-engage them
- asking clients open questions about product or service levels
- including ‘comments’ on all order or transaction documentation.

**Feedback**

may include:

- comment on accuracy and sufficiency of information
- responding appropriately to the audience
- benefits to organisation
- impact of message
- liaison with networks
- participation of competitors
- use of media

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence must be provided of the following:

- creating networking opportunities
- establishing contacts, building relationships and participating in networks in Asia
- developing strategies to seek ongoing feedback for business in Asia
- developing knowledge of related Asian organisations, agencies and networks
- maintaining relevant contacts for business in Asia.

</tr>
</tbody>
</table>
3 Present and negotiate persuasively with stakeholders for business in Asia

3.1 Present information pertaining to business in Asia in a culturally respectful manner.

3.2 Acknowledge differences of opinion to encourage the rigorous examination of all options.

3.3 Use culturally appropriate communication styles to present Asian business positions to best effect.

3.4 Seek mutually beneficial solutions by establishing areas of common ground and potential compromise.

3.5 Keep negotiations focused on key issues and moving forward towards a final resolution.

3.6 Identify difficult situations and negotiate solutions using collaborative problem-solving techniques.

4 Implement agreements

4.1 Implement negotiated agreements using processes that are flexible and incorporate contingencies.

4.2 Adhere to agreements in order to maintain the credibility and trust of others.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- English language and literacy skills to:
  - read, interpret and communicate legislation, regulations, policies, procedures and guidelines relating to country-specific Asian business practices
  - communicate impartially, diplomatically and persuasively with diverse stakeholders, including conducting open discussions
- negotiation and interpersonal skills to:
  - work with others and relate to people from a range of cultural, social and religious backgrounds
- problem-solving and innovation skills to find practical ways to negotiate
- planning skills to:
  - plan presentations for desired outcome for business in Asia
  - plan culturally appropriate problem solving techniques.

Required Knowledge

- relevant, Asian country-specific business culture protocols to:
  - plan meetings
  - plan strategy for meetings
- organisational policies and procedures, including:
o presentation/negotiation styles
o meeting protocols
o strategic purpose of meetings
o overall operations of organisation

• principles of communication theory, especially cross-cultural communication, including:
  o establishing rapport sharing perspectives
  o understanding business nuances
  o defining the issue
  o identifying interests
  o identifying negotiation styles and adapting to different negotiation styles
  o generating options
  o developing criteria for decision making
  o evaluating options
  o reaching agreement.

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Business in Asia** may include:

• goods
• services
• foreign aid
• environmental aid
• commerce
• commercial relationships.

**Protocols** may include:

• meeting structure
• respecting elders
• respecting rankings especially when dealing with Government officials
• being patient, polite and modest
• establishing relationships before conducting business
• being on time
• business etiquette:
  o issuing your business card in a respectful manner and to the most senior official first
  o checking Asian calendars to avoid making appointments for national holidays
  o being well prepared
  o organising for interpreters to be present, if required
  o sharing materials about your business
• dressing formally.
**Negotiation plans** may include:

- who is involved from both sides:
  - status
  - culture
  - expertise
- negotiation styles that may be adopted
- what actions are required
- who is taking responsibility
- timelines
- monitoring processes
- communicating actions in a manner that is culturally sensitive to the Asian country or countries of operation.

**Collaborative problem-solving techniques** may include:

- establishing rapport sharing perspectives
- understanding business nuances
- defining the issue
- identifying interests
- identifying negotiation styles and adapting to different negotiation styles
- generating options
- developing criteria for decision making
- evaluating options
- reaching agreement.

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence must be provided of the following:

- communicating clearly and in a culturally sensitive manner with Asian business stakeholders
- planning negotiations for business outcomes in Asia
- demonstrating capability to present and negotiate effectively with Asian business stakeholders
- knowledge of relevant Asian country-specific business protocols.

**Context of and specific resources for assessment**

Assessment of performance requirements in this unit should be undertaken within the context of Asian business capability.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. Participants may utilise media to generate and submit reports or presentations to support each performance criterion.
The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

**Method of assessment**

- Project work
- Written reports supported by practical assignments or tasks for individual assessment
- Observation of workplace practice supported by personal interviews
- Practical display with personal interview, presentations or documentation
- Case studies
- Essays and assignments

Resources required for assessment include:

- Access to a relevant workplace or closely simulated Asian business environment
- Accessibility to suitable books, journals and papers together with computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.
VU21768 Prepare to establish a workforce presence in Asia

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to plan a workforce presence in Asia. It includes workforce considerations, planning business establishment in Asia, recruitment, on-going management and the development of performance standards.
No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills
This unit contains Employability Skills.

Application of the Unit
This unit applies to personnel who conduct or plan to conduct business activity in Asia. It covers planning for work allocation, financing and the methods to review performance, and to provide feedback.
The unit may relate to a small to medium size organisation or a significant business unit within a large enterprise.

<table>

</tbody>
</table>

1. Assess need for workforce presence in Asia
   1.1 Conduct research on the competitive landscape and local business conditions to ensure that there is a viable opportunity to conduct business in Asia.
   1.2 Confirm business capacity to expand into markets in Asia.
   1.3 Determine if business or proposed business will benefit from developing operations or representation in Asia.
   1.4 Consider a range of geographic locations for operations or representation in Asia, based on market size, accessibility, and legal and political environment.

2. Plan Asian presence
   2.1 Research, or seek professional advice on local workforce conditions and the benefits of a workforce presence in Asia.
   2.2 Consider the costs risks and benefits of various types of operations or representation in Asia.
   2.3 Determine one or more suitable options to establish a workforce presence in Asia.
   2.4 Research, or seek professional advice on the logistical and operational considerations for the proposed options for business in Asia.
   2.5 Conduct risk analysis for workforce in Asia in accordance with organisational risk management plan and legal requirements and controls that impact upon business activity with the intended Asian country or counties.
3 Prepare to manage a workforce in Asia

3.1 Consult organisational management or leadership consultants on employee life cycle considerations, effective Asian leadership protocols for business and recruitment in Asia.

3.2 Develop outcome focussed work plans in accordance with operational plans and issues pertaining to conducting business in Asia.

3.3 Consider performance standards for the workforce in Asia, Code of Conduct, work outputs and financing arrangements with relevant teams and individuals.

4 Determine performance assessment methods for personnel based in Asia

4.1 Design performance management for the workforce in Asia and review processes to ensure consistency with organisational objectives and policies.

4.2 Develop criteria against key Asian business cultural elements to evaluate performance, behaviour and suitability for duties related to business capability in Asia.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- research skills to seek relevant information about conducting business in Asia
- English language and literacy skills to:
  - read, interpret and communicate legislation, regulations, policies, procedures and guidelines relating to country-specific Asian business practices
  - communicate impartially and diplomatically with diverse stakeholders
  - articulate expected standards or performance and provide effective feedback
- interpersonal skills to:
  - consult and provide advice on Asian cultural issues
  - work with others and relate to people from a range of cultural, social and religious backgrounds
  - arrange for information to be communicated to personnel
- planning skills to:
  - plan culturally appropriate Asian workforce practices
- risk identification and analytical skills to identify issues that may pose risk to business in Asia.

Required Knowledge

- planning methods to:
  - anticipate employee life cycle considerations
  - plan for relevant financing arrangements for business in Asia
  - plan remuneration practices in Asia
- relevant, Asian country-specific workforce policies and contemporary practices, including:
  - leadership practices in Asia
o recruitment practices in Asia:
  - selection
  - onboarding and orientation:
  - employee services:
  - retention:
  - performance management:
  - transition

• relevant international trade related legislation and legislation that affects business operation, in regard to:
  o occupational health and safety
  o environmental issues
  o equal opportunities
  o industrial relations
  o anti-discrimination
  o relevant awards and certified agreements
  o performance measurement systems utilised within the organisation
  o unlawful dismissal rules and due process
  o personnel development options and information.

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Workforce presence in Asia** may include:

- considerations about the following:
  o expertise of the proposed Asian region’s population
  o political and social knowledge of the proposed Asian region’s population
  o organisational diversity
  o market significance
  o salary considerations
  o staff training considerations.

**Operations or representation in Asia** may include:

- expatriate staffing
- inpatriate staffing.

**Risk analysis for workforce in Asia** may include:

- determination of the likelihood of negative event(s) preventing the organisation meeting its objectives in Asia
- the likely consequences of such event(s) on organisational performance.

**Legal requirements** may include:

- requirements specified in international law
- international trade agreements and treaties, including:
- bilateral or multilateral treaty or other enforceable compact committing two or more nations to specified terms of commerce, usually involving mutually beneficial concessions
- general agreement of Tariffs and Trade (GATT) – a multilateral trade treaty among governments, embodying rights and obligations that constitute codes that are intended to help reduce trade barriers between signatories to promote trade through tariff concessions
- GATT TIS.

**Employee life cycle considerations** may include:

- recruitment and selection:
  - applications
  - interview
  - job skills testing
  - psychological testing
  - background checks
  - drug testing
  - recruitment services
- onboarding and orientation:
  - employee electronic onboarding
  - new hire orientation materials
  - customised employee orientation handbook or literature
- employee services:
  - employee relations support
  - benefits enrolment service team (BEST)
  - employee services:
    - discount programs
    - benefits
- retention:
  - innovative benefits programs
  - employee communication tools
  - compensation surveys
- performance management:
  - employee training and development programs:
    - employee satisfaction surveys
    - employee newsletter
  - programs and assessment tools
  - behavioural assessment for self-development
- transition:
  - exit interview
  - outplacement services
job search assistance
resume assistance.

**Effective Asian leadership protocols for business** may include:

- respect and courtesy, including consideration for cultural, religious circumstances and hierarchy of command
- tolerance
- identifying and resolving problems early by considering:
  - the context
  - the situation
  - the means of communication
- understanding cultural taboos, such as:
  - providing a vegetarian alternative for Hindu colleagues at company functions
  - not knowing the key stakeholders in a business transaction in China
  - giving the host alcohol as a gift in Dubai or other Islamic cultures
- understanding what it means to be an employer in Asia
- complying with legislating covering diversity issues in the workplace
- encouraging interaction
- simplifying language and avoid using slang or colloquialisms
- ensuring personnel understand direction, i.e. when giving instructions, diplomatically ask people to show their understanding of what is expected
- understanding where potential problems in communication may occur and overcoming them, e.g.:
  - rather than using text for occupational health and safety issues illustrate them with a diagram
  - providing written instructions as a back-up to prevent misunderstandings
  - using interpreters when required.

**Recruitment in Asia** may include:

- appropriate recruitment agencies
- accurate job descriptions
- spotting talent
- ascertaining candidates’ skills and knowledge accurately
- being mindful of transferable skills
- recruiting people who suit the culture of the organisation
- being aware of cultural differences and bridging gaps by recruiting effectively
- conditions of employment.
Issues pertaining to conducting business in Asia may include:

- remuneration policies for:
  - local staff
  - expatriate staff
  - transfer of staff between overseas offices
- taxation
- tax equalisation
- conducting business with Asian currency
- mobility of the workforce
- redundancy and commensurate salaries
- payment methods and getting paid on time
- contractual protocols.

Performance standards for the workforce in Asia may include:

- Asian country-specific performance standards in designated field of work
- level of performance sought from an individual or group which may be expressed either quantitatively or qualitatively.

Code of Conduct may include:

- agreed (or decreed) set of rules relating to employee behaviour or conduct with other employees
- agreed (or decreed) set of rules relating to employee behaviour or conduct with clients.

Performance management for the workforce in Asia may include:

- management in accordance with relevant industrial agreements
- management in accordance with regulations in relevant Asian country/countries
- process or set of processes for establishing a shared understanding of what an individual or group is to achieve and managing and developing individuals in a way which increases the probability it will be achieved in both the short-term and long-term.

Criteria may include:

- past performance
- goals and/or aspirations
- eligibility
- age
- support structures
- psychological state
- sociological observation
- cultural understanding
- skill levels
- work experience
- proficiency in Asian language(s)
- cultural practices in the workforce and home environment.

**Key Asian business cultural elements** may include:
- discretion
- the importance of public perception
- business card rituals
- developing a trusting relationship
- not being too outspoken
- being perceptive about who the decision maker is (often in Asian cultures, in meetings the quiet people are the decision makers)
- the importance of discussing the details about product or service features (often Asian culture is technology centric whereas Western culture is often experience-centric).

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence must be provided of the following:

- analysing desired outcomes for developing a presence in Asia
- knowledge of where to seek information for conducting business in Asia
- conducting a risk analysis for proposed business in Asia
- developing performance management methods for business in Asia
- knowledge of employment practices in proposed Asian region.

**Context of and specific resources for assessment**

Assessment of performance requirements in this unit should be undertaken within the context of Asian business capability.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. Participants may utilise media to generate and submit reports or presentations to support each performance criterion.

The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

**Method of assessment**

- Project work
- Written reports supported by practical assignments or tasks for individual assessment
• Observation of workplace practice supported by personal interviews
• Practical display with personal interview, presentations or documentation
• Case studies
• Essays and assignments

Resources required for assessment include:
• Access to a relevant workplace or closely simulated Asian business environment
• Accessibility to suitable books, journals and papers together with computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.
VU21769 Assess risk for business in Asia

Unit Descriptor
This unit describes the performance outcomes, skills and knowledge required to assess risks in a range of business in Asia contexts.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills
This unit contains Employability Skills.

Application of the Unit
This unit applies to personnel who conduct or plan to conduct business activity in Asia. It applies to individuals who are working in positions of authority. They may or may not have responsibility for directly supervising others.

The unit may relate to a small to medium size organisation or a significant business unit within a large enterprise.

### ELEMENT PERFORMANCE CRITERIA

Elements describe the essential outcomes of a unit of competency.

Performance criteria describe the required performance needed to demonstrate achievement of the element. Where **bold italicised** text is used, further information is detailed in the required skills and knowledge and/or the range statement. Assessment of performance is to be consistent with the evidence guide.

1. **Establish risk context for business in Asia**
   
   1.1 Review organisational processes, procedures and requirements for undertaking *internal and external risk* management for business in Asia.

   1.2 Determine the **scope** of the risk management process.

   1.3 Access and interpret current, relevant *international and country specific legal obligations* and *ethical practices with regard to international business*.

   1.4 Review political, economic, social, *legal*, technological and policy context that is relevant to business in Asia.

   1.5 Obtain organisational support for risk management activities.

   1.6 Communicate with relevant parties about the risk management process for business in Asia and invite participation.

2. **Identify risks for business in Asia**

   2.1 Invite **relevant parties** to assist in the identification of risks of business in Asia.

   2.2 **Research** internal and external risks that may apply to the scope for business in Asia.

   2.3 Use **tools and techniques** to generate a list of risks that apply to the scope for business in Asia, in consultation with relevant parties.
3. Analyse risks for business in Asia

3.1 Assess likelihood of risks occurring during business in Asia.

3.2 Assess impact or consequence if risks occur during business in Asia.

3.3 Conduct evaluation of risks and prioritise risks for treatment.

4. Select risk control and mitigation options for business in Asia

4.1 Determine and select the most appropriate options for treating or mitigating risks for business in Asia.

4.2 Assess the financial viability of business in Asia and match organisational capability with market needs.

4.3 Devise solutions to meet both legislative and business requirements in Asian business.

4.4 Develop an action plan for implementing risk treatment for business in Asia.

4.5 Communicate risk management processes to relevant parties.

4.6 Document risk management analysis and determine timelines for review and analysis of risk in business in Asia.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

Required Skills

- English language and literacy skills to:
  - read, interpret and communicate legislation, regulations, policies, procedures and guidelines relating to country-specific Asian business practices
  - communicate impartially and diplomatically with diverse stakeholders, including conducting open discussions
  - articulate risk identification and risk management processes for business in Asia

- Interpersonal skills to:
  - consult and provide advice on Asian business risk management issues
  - work with others and relate to people from a range of cultural, social and religious backgrounds

- Planning skills to:
  - identify, analyse and develop mitigation strategies for risks in business in Asia
  - incorporate the political and government influence on commerce
  - assess the financial viability of new opportunities and matching organisational capability with market needs
  - develop a range of options in response to difficulties arising from conducting business in a complex environment
  - analyse compliance legislative issues in Asian business activities, devising solutions to meet both legislative and business requirements
  - develop techniques to overcome resistance
  - control, minimise, or eliminating hazards that may exist during activity in the Asian business context
• research skills to identify internal and external risks pertaining to business in Asia.

Required Knowledge

• planning methods to:
  o plan for the overall operations of the organisation and local customs for employees
  o incorporate relevant, Asian country-specific workforce policies and capability in business plans

• relevant international trade related legislation and legislation that affects business operation, in regard to:
  o occupational health and safety
  o environmental law
  o equal opportunities
  o industrial relations
  o anti-discrimination
  o reasonable adjustment in the workplace for people with a disability
  o duty of care
  o company law
  o freedom of information
  o industrial relations law
  o privacy and confidentiality
  o legislation relevant to organisational operations
  o legislation relevant to operation as a business entity in Asia

• organisational policies and procedures, including:
  o overall operations of the organisation
  o risk management strategy:
    – ISO Risk Management – Principles and Guidelines
    – Types of available insurance and insurance providers
  o policies and procedures for risk management.
RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

**Internal and external risk** may include:

- **internal:**
  - business capability to operate, protect IP and resources etc.
  - human behaviour
  - individual activities
  - commercial relationships in Asia
  - technology

- **external:**
  - cultural differences relating to business in Asia
  - economic circumstances and scenarios
  - competition
  - international legislation pertaining to specific business in Asia
  - management activities and controls
  - natural events
  - political risk, checking agencies that can produce political risk rating:
    - the Economist Intelligence Unit
    - Euromoney
    - The World Bank
  - policy uncertainty:
    - political hazards – an objective measure of political institutions
    - a change in the political environment
  - political stability
  - political circumstances pertaining to business in Asia
  - technology
  - purchasing power parity in relation to:
    - foreign exchange rate changes
    - currency conversion
    - trade weighted index
    - balance of trade
  - interest rate differentials.
**Scope** may include:

- project in Asia
- differences in risk profiles, i.e. for manufacturing or exporting product or service
- specific business organisation or unit
- product or service
- external environment
- international organisational environment
- specific function:
  - financial management
  - OHS
  - Governance.

**International and country specific legal obligations** may include:

Anti-bribery and corruption laws and conventions:

- United Nations Convention against Corruption;
- *Criminal Code Amendment (Bribery of Foreign Public Officials) Act 1999 (Australia)*
- The *Foreign Corrupt Practices Act of 1977 (FCPA)* (United States)
- The Bribery At 2010 (United Kingdom).

Privacy laws and conventions:

- Privacy Act 1988 (Australia)

Labour laws and conventions:

- International Labour Organisation Declaration and the Fundamental Principles and Rights at Work;
- The Convention on the Rights of the Child (No. 138 on the Minimum Age for Admission to Employment, 1973) and No. 182 on the Worst Forms of Child Labour, 1999

International Trade laws and conventions:

- Article VI of the GATT (Anti-Dumping)
- Customs Tariff (Anti-Dumping) Act 1975
- Charter of the United Nations Act 1945 (Cth) – Part V and Part VI (Sanctions)
- Autonomous Sanctions Act 2011 (Cth) (Australia)
- Customs (prohibited imports) regulations 1956

Environmental laws and conventions:

- *Illegal Logging Prohibition Act 2012* (Australia)
• Convention on the International Trade in Endangered Species of Wild Flora and Fauna (CITES) ;
• Convention on the Prevention of Marine Pollution by Dumping Wastes and Other Matter

**Ethical practices with regard to international business** may include

• codes of practice
• ethical principles
• society’s expectations
• cultural expectations and influences
• social responsibilities
• ethical work practices
• sound contracting of staff
• sound work premises
• safety issues
• security
• privacy issues
• environmental issues

**Legal** may include

• requirements specified in international law
• international trade agreements and treaties, including:
  o bilateral or multilateral treaty or other enforceable compact committing two or more nations to specified terms of commerce, usually involving mutually beneficial concessions
  o general agreement of Tariffs and Trade (GATT) – a multilateral trade treaty among governments, embodying rights and obligations that constitute codes that are intended to help reduce trade barriers between signatories to promote trade through tariff concessions
• legislation applicable to supplier country
• regulations and codes of practice, including:
  • regulations and codes of practice for the international freight transfer
  • Australian and international regulations and codes of practice for the handling and transfer of goods, including dangerous goods and hazardous substances:
    o Australian and International Dangerous Goods codes (ADG and IDG)
    o Australian Marine Orders and International maritime Dangerous Goods Code
    o IATA Dangerous Goods by Air Regulations
    o Australian and International Explosives Codes
• relevant regulations for the import and export of cargo
• Australian and international standards and certification requirements
• INCOTERMS – the set of international rules for the interpretation of trade terms published by the International Chamber of Commerce (ICC) and
applied to imports and exports to specify transport and payment conditions

- Australian regulatory controls:
  - Australian Customs Service (ACS) requirements
  - Australian Quarantine Inspection Services (AQIS) requirements
  - requirements of other government departments and agencies
  - relevant State/Territory Workplace Health and Safety legislation
  - relevant State/Territory environmental protection legislation

Relevant parties may include:

- all personnel
- Asian and Australian stakeholders that are internal and external to the organisation
- senior management
- specific teams or business units
- technical experts.

Research may include:

- Asian data or statistical information
- information from other business areas
- lessons learned from other projects or activities
- market research
- previous experience
- public consultation
- review of literature and other information sources

Tools and techniques may include:

- brainstorms
- checklists
- fishbone diagrams
- flowcharts
- scenario analysis.

Likelihood may refer to:

- probability of a given risk occurring:
  - very likely
  - likely
  - possible
  - unlikely
  - rare.

Impact or consequence may include:

- significant or outcomes if the risk occurs:
  - disastrous
  - sever
Assess risk for business in Asia

Section C: Units of competency

Options may include:

- avoiding the risk
- changing the consequences
- changing the likelihood
- retaining the risk
- sharing the risk with a third party
- insurance
- seeking Asian expertise to manage the risk.

Action plans must include:

- what actions are required
- who is taking responsibility
- timelines
- monitoring processes
- communicating actions in a manner that is culturally sensitive to the Asian country or countries of operation.

EVIDENCE GUIDE

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

Critical aspects for assessment and evidence required to demonstrate competency in this unit

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence must be provided of the following:

- developing a risk management plan for business in Asia, which includes a detailed stakeholder analysis, explanation of the risk context, critical success factors, identified and analysed risks and treatments for prioritised risks
- knowledge of relevant legislation and codes of practice pertaining to country-specific employment in Asia.

Context of and specific resources for assessment

Assessment of performance requirements in this unit should be undertaken within the context of Asian business capability.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring.

Participants may utilise media to generate and submit reports or presentations to support each performance criterion.

The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

Method of assessment

- Project work
- Written reports supported by practical assignments or tasks for individual assessment
- Observation of workplace practice supported by personal interviews
- Practical display with personal interview, presentations or documentation
- Case studies
Essays and assignments

Resources required for assessment include:

- Access to a relevant workplace or closely simulated Asian business environment
- Accessibility to suitable books, journals and papers together with computer hardware, software and/or other appropriate technology necessary to address the elements and satisfy the performance criteria of this unit.
VU21770 Tailor a product or service for the Asian market

Unit Descriptor

This unit describes the performance outcomes, skills and knowledge required to tailor a product or a service for the Asian market. It includes conducting research and selecting an appropriate product or service to suit the Asian market.

No licensing, legislative, regulatory or certification requirements apply to this unit at the time of publication.

Employability Skills

This unit contains Employability Skills.

Application of the Unit

This unit applies to personnel who conduct or plan to conduct business activity in Asia. An understanding of the product or service integral to the proposed business is required.

The unit may relate to a small to medium size organisation or a significant business unit within a large enterprise.

1. Analyse Asian market information

1.1 Research and analyse the *Asian market* to evaluate business opportunities in an existing or new *product or service*.

1.2 Assess historically related product or service use in Asian country or countries of business or intended business activity.

1.3 Analyse past trends and *legislation* that apply to the Asian market to determine market variability and associated risks.

1.4 Determine the **challenges of being innovative** when conducting business in Asia.

2. Access Asia specific product or service intelligence

2.1 Access the information needed to determine the *fit between the product or service and the Asian market*.

2.2 Conduct research from various *information sources* on customer profile and requirements, Asian cultural characteristics and timelines that are relevant to the product or service.

2.3 Generate ideas on a suitable product or service for business in Asia.

2.4 Consider the most appropriate product or service based on customer stated requirements in terms of features, benefits, terms and conditions and other factors that are important to the Asian market.
3. Determine the most suitable product or service option(s) to meet the Asian market

3.1 Recommend the most suitable product or service option(s) to stakeholders and/or potential customers.

3.2 Analyse business capabilities and constraints to ensure delivery capability of product or service option(s).

3.2 Discuss option(s) with appropriate personnel or stakeholders and agree on the most appropriate.

3.3 Establish suitable product or service option(s) in line with market research and/or organisational policy and relevant legislation.

REQUIRED SKILLS AND KNOWLEDGE

This describes the essential skills and knowledge, and their level, required for this unit.

- English language communication skills to:
  - provide comprehensive product and service information to stakeholders, using questioning and active listening as required
  - present product or service option(s) and negotiate with potential customers
  - liaise with others, share information, listen and understand
  - use language and concepts appropriate to Asian cultural differences

- IT skills to:
  - access and use appropriate software, such as spreadsheets and databases and use internet information
  - manage information on product(s) or service(s)

- Well-developed literacy skills to:
  - analyse information and products to suit the Asian market
  - document product or service option(s)
  - read, interpret and communicate legislation, regulations, policies, procedures and guidelines relating to country specific Asian product(s) or service(s)

- Critical thinking skills to determine opportunities and business capability

- Problem solving skills to address market product or service issues

- Research skills to conduct market research relating to product or suitability to the Asian market

- Organisational skills, including:
  - the ability to evaluate the capability of local associates
  - the ability to plan and sequence work
  - arrange for cultural information to be communicated to appropriate personnel.
Required Knowledge

- organisational policies and procedures and terms and conditions, including:
  - regulatory processes
  - Asian industry requirements and legislation applicable to the relevant product(s) or service(s) and the relevant situations
- research methods to access and interpret:
  - support information
  - materials
  - relevant brochures
  - other appropriate information
- relevant product(s) or service(s) available and valued by the Asian market, including:
  - product(s) or service(s) developed by other vendors, lenders and/or organisations that are used by or contracted out by the organisation
  - specific benefits and features of the relevant product(s) or service(s) and how they are perceived in Asia
- business ethics and local nuances:
  - discretion
  - the importance of public perception
  - business card rituals
  - developing a trusting relationship
  - providing relevant information to the decision maker
  - the importance of discussing the technical details about product or service features.

RANGE STATEMENT

The Range Statement relates to the unit of competency as a whole. It allows for different work environments and situations that may affect performance. **Bold italicised** wording in the performance criteria is detailed below.

Asian market may include:
- wholesalers
- retailers
- exporters
- private and public sector organisations and enterprises
- markets in:
  - Central Asia
  - East Asia
  - North Asia
  - Northeast Asia
  - South Asia
  - Southeast Asia
Section C: Units of competency

VU21770 Tailor a product or service to the Asian market

- Southwest Asia
- Western Asia
- Inner Asia
- Indian sub-continent
- China
- Greater Mekong subregion
- Australia.

**Product or service** may include:

- visualising the product or service idea:
  - what is the concept
  - why might the consumer want it
- product(s) or service(s) developed and offered by the organisation
- product(s) or service(s) developed by other vendors, lenders and organisations that are used by or contracted out by the organisation.

**Legislation** may include:

- codes of practice
- ethical principles
- copyright
- social responsibilities
- safety issues
- security breaches
- privacy breaches
- other strategies to minimise or transfer risk
- selection or rejection of particular payment methods
- specifying a particular currency for payment
- company law
- international law
- trade agreements and treaties, including:
  - bilateral or multilateral treaty or other enforceable compact committing two or more nations to specified terms of commerce, usually involving mutually beneficial concessions
  - general agreement of Tariffs and Trade (GATT) – a multilateral trade treaty among governments, embodying rights and obligations that constitute codes that are intended to help reduce trade barriers between signatories to promote trade through tariff concessions
  - GATT TIS
- legislation applicable to supplier country
- regulations and codes of practice.
Challenges of being innovative may include:

- budgetary or other resource constraints
- competing priorities
- organisational culture
- difficulty with breaking old patterns of operation
- business image
- time pressures.

The fit between the product or service and the Asian market may include:

- analysing the distribution and its impact on product(s)
- analysing the chain of command for service delivery
- market overview:
  - historical data (3 to 5 years)
  - trend projection (3 to 5 years)
- distribution channels:
  - available distribution channels
  - estimated size of distribution channels
  - distribution methods
- the need for your products or services in the Asian market of choice:
  - e.g.:
    - minerals and fuels
    - energy investment
    - food and food technologies
    - transport
    - education
    - country specific e.g.:
      - China is active pursuit of new technologies to boost the country’s global competitiveness
      - Australia offers services that complement India’s economic rise in education, tourism, financial services and insurance
- domestic competition:
  - can your products be easily copied (you might lose your competitive advantage to low-cost domestic competitors
- rules and regulations:
  - taxation
  - entry barriers
- pricing
- packaging
- manner of promotion
- safety issues
- copyright
- ethical and cultural principles.

**Information sources** may include:

- advice from:
  - academics
  - chambers of commerce
  - colleagues who are residents or former residents of chosen Asian country or countries
  - industry associations
  - other private agencies specialising in business in Asia
  - professional advisors
  - senior colleagues
  - technical experts
  - training providers
- government agencies such as:
  - Austrade
  - state/territory government departments
- professional libraries
- reference material:
  - paper-based
  - internet
- trade journals
- information on potential risk, including:
  - selection or rejection of particular payment methods
  - specifying a particular currency for payment.

**Business capabilities** may include:

- financing
- operational capability
- access to human resources
- competition
- capacity to conduct international business in Asia
- management
- product or service expertise
- return on investment
- managing across functional areas
Market research may include:

- tastes of different cultures
- visual packaging preferences, including colour and shape of packaging
- physical location of the product on the shelf
- appropriate sales techniques for Asian regions
- markets in Asian regions

**EVIDENCE GUIDE**

The evidence guide provides advice on assessment and must be read in conjunction with the Performance Criteria, Required Skills and Knowledge, Range Statement and the Assessment Guidelines of this qualification.

**Critical aspects for assessment and evidence required to demonstrate competency in this unit**

The critical aspects should reflect what someone competent in the workplace is able to do and what is acceptable evidence to permit an assessor to make a professional judgment. Evidence must be provided of the following:

- researching Asian markets to determine suitability of the proposed product or service
- developing product or service specific knowledge as applied to the Asian market
- analysing business capability with regard to conducting business in Asia
- recommending a suitable product or service for the relevant Asian market.

**Context of and specific resources for assessment**

Assessment of performance requirements in this unit should be undertaken within the context of Asian business capability.

Participants may gain relevant experiential learning and assessment opportunities in formal, distance or workplace facilities, under supervision or mentoring. Participants may utilise media to generate and submit reports or presentations to support each performance criterion.

The responsibility for valid workplace assessment lies with the training provider through its designated supervisor/mentor.

**Method of assessment**

- Project work
- Written reports supported by practical assignments or tasks for individual assessment
- Observation of workplace practice supported by personal interviews
- Practical display with personal interview, presentations or documentation
- Case studies
- Essays and assignments

Resources required for assessment include:

- Access to a relevant workplace or closely simulated Asian business environment
- Accessibility to suitable books, journals and papers together with computer hardware, software and/or other appropriate technology
necessary to address the elements and satisfy the performance criteria of this unit.
