

### 3. Durchzählen

erste

zweite

dritte

vierte

fünfte

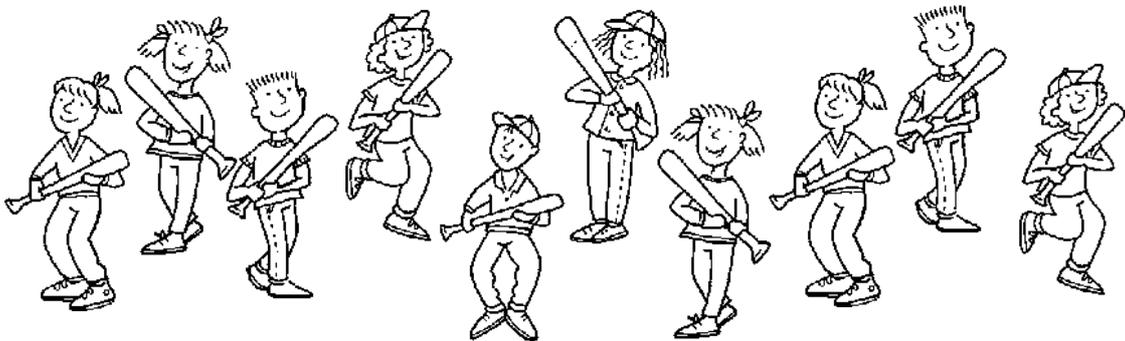

sechste

siebte

achte

ninth

zehnte

#### Instructions

- This activity requires ten students
- Cut out the cards, shuffle and place in a pile face down.
- Each student then takes one card and lines up according to the number on their card. For example the student with 'dritte' would be third in line.
- When the line is complete students call out their number in order beginning with 'erste'.
