

## 6. Mostra e racconta con le foto

Italian, Section 36 : il passato prossimo

Create a photo story to tell what you did during your last holidays. It can be a real or imagined holiday.

You can use MS Photo Story or a similar application to create a slideshow video using your own digital photos or ones you have saved from the internet (this is OK for class work purposes only).

Write a 250-word script in Italian to tell a story about what happened and what you did during the holiday. Arrange your photos to illustrate the story. Add your script as captions (and as recorded commentary if you wish). Add special effects and music if you like.
