

3. Let's play!

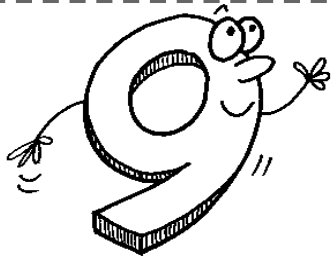

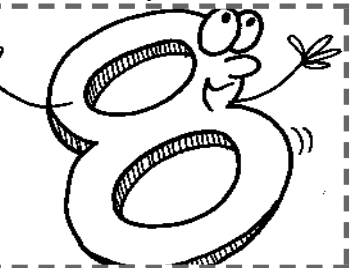

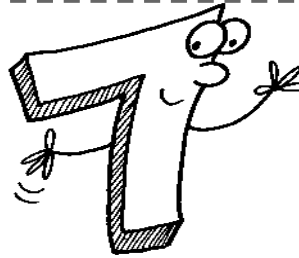

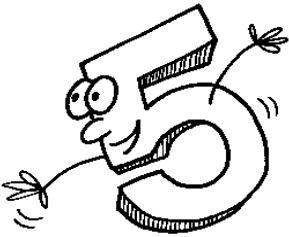

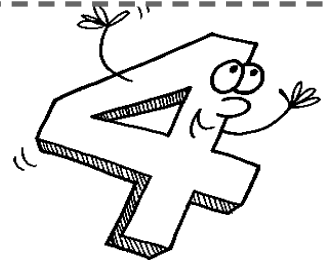

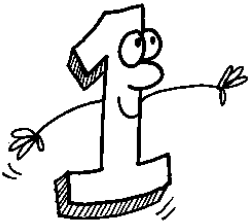

What is your name?

How are you?

How old are you?

your
number ?

Mathematics

Instructions

- Cut out the cards and put them into two piles face down, questions in one pile and numbers in the other.
- Choose a card with a number and another one with a question.
- Answer the question to win the points on the number card.
- If you pick up the maths activity card ($___ + ___ = 12$), then you must use your number card and add the number to equal 12.

Name: _____
