

8. Affichage pour la classe

► Instructions

As a class, create a display for your classroom, showing pictures and models of different forms of transport used in France.

Use the Internet, reference books and magazines to find pictures of traditional and modern forms of transport.

Make copies, or draw your own version of these pictures. (Remember to mention the websites that these pictures come from.)

Why not make a model of a traditional French mode of transport?

Label these pictures and models in French. Add any other interesting details which you discover in your research.
