

3. Gerade und ungerade Zahlen

Instructions

- This game requires four or more players.
- Cut out both dice, fold the tabs and stick the squares together to form a cube.
- Break into two groups, each taking a dice.
- Each group begins with one player rolling the dice and calling out the number rolled. When a player rolls 'Gerade Zahlen' or 'Ungerade Zahlen' they must call out all the even numbers ('Gerade Zahlen') or odd numbers ('Ungerade Zahlen') on the dice. Groups then swap dice and continue.
