

### 3. Un'indagine

| Nome dello studente | football | pallavolo | dama | scacchi | computer | andare a cavallo | tennis | nuotare |    |    |
|---------------------|----------|-----------|------|---------|----------|------------------|--------|---------|----|----|
| 1                   |          |           |      |         |          |                  |        |         | Si | No |
| 2                   |          |           |      |         |          |                  |        |         | Si | No |
| 3                   |          |           |      |         |          |                  |        |         | Si | No |
| 4                   |          |           |      |         |          |                  |        |         | Si | No |
| 5                   |          |           |      |         |          |                  |        |         | Si | No |
| 6                   |          |           |      |         |          |                  |        |         | Si | No |
| 7                   |          |           |      |         |          |                  |        |         | Si | No |
| 8                   |          |           |      |         |          |                  |        |         | Si | No |
| <b>Totale</b>       |          |           |      |         |          |                  |        |         |    |    |

#### Instructions

- Interview 8 students in your class about what they like doing.
- List their names in the first column.
- Ask each student 'Ti piace giocare a/col \_\_\_\_?' or 'Ti piace \_\_\_\_?' for each of the games listed.
- Place a tick or cross in the correct row.
- Complete the survey by adding up the totals for each game and writing them in the bottom row.

Name: \_\_\_\_\_
