### Instructions

- This activity requires 2 students. Cut out the animal cards.
- Place the animal cards face down in a pile.
- Student A begins by asking the question "Hast du eine Maus?".
- Student B picks up the first animal card and, according to the animal selected, answers from either column 'A' or column 'B'. Both students continue then complete the conversation from that column.
- Remember that you need to know whether the animal is masculine (der), feminine (die) or neuter (das).
- Students then swap roles and continue until all cards have been used.
