

6. Sondage en classe

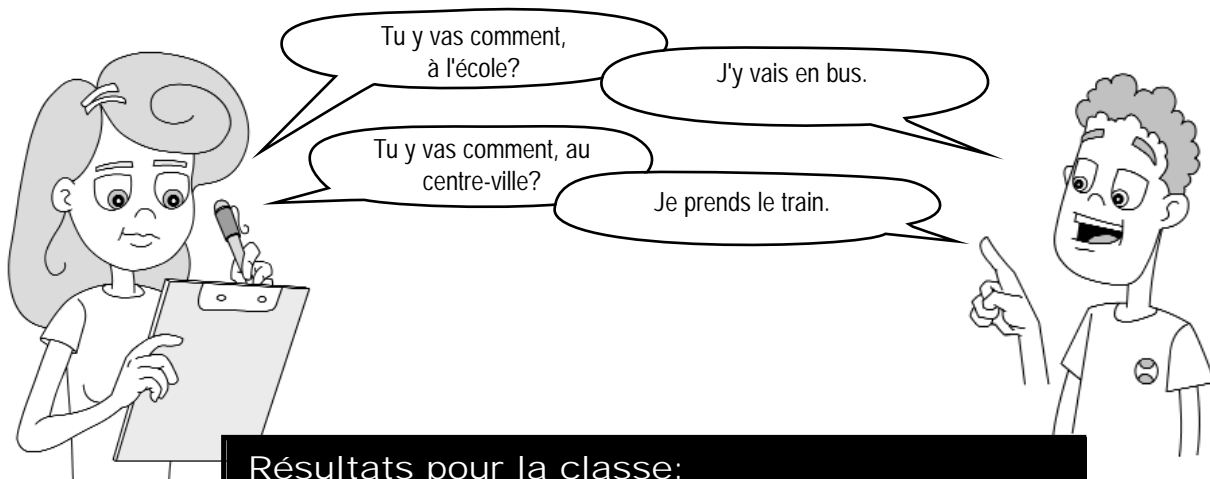

► Instructions

1. In pairs or threes, choose one of the survey questions.
2. Each member of the group must ask 6-8 classmates the question and record the answers in French in the 'Réponses' table.
3. As a group, pool your answers and work out the most common type of transport given for this question.
4. Each group presents their question and the most common answer to the rest of the class.
5. Listen to each finding, and record all the answers in the 'Résultats pour la classe' table.
