

8. Pameran ruang kelas

► Instructions

As a class, create a display for your classroom, showing pictures and models of different forms of transport used in Indonesia.

Use the Internet, reference books and magazines to find pictures of traditional and modern forms of transport in Indonesia.

Make copies, or draw your own version of these pictures. (Remember to mention the websites that these pictures come from.)

Why not make a model of a traditional Indonesian mode of transport?

Label these pictures and models in Indonesian. Add any other interesting details which you discover in your research.
