# Workplace

## Workplace: Your preferences

Regarding workplace, you like the idea of a comfortable, well-equipped building where you can meet new people frequently. You don't like the idea of being stuck away on your own in an office and nor do you want to be outside in all weathers. There are many careers with many employers which will provide this combination. You don't have much desire to find work that is largely physical, nor indeed work that is based outdoors. You probably prefer to be in a relatively comfortable environment, working alongside other people.

Personality describes the way we think, feel and behave - in short, it is what makes us unique. When considering careers, we often think about having the right skills and qualifications, but having the right personal qualities can be just as important. Our personality type, and the way we act and behave will influence our suitability for some careers more than others. This profile also informs your career suggestions.

The main feature of your results is your extraversion result. You enjoy being in the company of others and being the centre of attention. You want to live in the here-and-now and enjoy sharing new experiences with others.
