

FOR THE LATEST NEWS FROM THE LEARN LOCAL SECTOR - PROVIDING QUALITY TRAINING FOR ADULTS IN EMPLOYMENT AND EDUCATION

Message from the Minister...

Last month I had the privilege of speaking at two significant ACFE events. The first was the Responding to CALD Learners Showcase and the release of the publication *Responding to CALD Learners: Cultural Diversity in Action*.

Peter Hall speaking at the CALD Learners showcase

The second was the annual e-Learning Showcase, this year attended by over 150 participants. Both events highlight the significant work the sector does in reaching out to new learners, be that face-to-face or electronically. Congratulations to everyone involved!

– Peter Hall, Minister for Higher Education and Skills

Help us build a pre-accredited quality framework

Over the last couple of months, A-frame moderation training has been delivered to nearly 300 Learn Local practitioners around Victoria. Central to the development of a moderation process is your constructive feedback. The documents provided in the workshops were deliberately presented in a draft format to allow for continuous improvements with your input. People who have done the moderation training will be emailed in the next few weeks asking for their suggestions and comments.

So, now that you've started, how do you keep going with moderation?

A new wiki has all the documents and links you need. Click on the 'moderation' page to find downloadable documents, recording links to a training session, and the Powerpoint presentation if you want to train other staff in your organisation. <http://pqf.acfe.vic.edu.au/>.

e-Learning...up, up and away!!!!

Last month, the hugely successful e-Learning Showcase was attended by over 150 people from many organisations within the Learn Local sector. Minister for Higher Education and Skills, Peter Hall officially opened the day and included a friendly quip about discovering that he was a 'digital immigrant' himself when faced with terms such as Moodle, Doodle, Dropbox and Skype. It highlights just how important it is to develop and maintain skills in digital literacy for employment and education.

The happy winner of the iPad competition was Heather McCall.

Have you heard the news? The *ACFE e-Mentor Project* has been extended until June 2013. This is an exclusive opportunity for Learn Local organisations to hook up with an e-Mentor and become digitally savvy! For details on how you can participate, follow this link to [General Memo 2012/19](#).

Outstanding Koorie Achievement

Moe Life Skills
Outstanding pre-accredited program

Upper Yarra Community House
Innovation in Learning

2012 winners will be announced on
7 September during
Adult Learners' Week

1 – 8 September
Adult Learners' Week

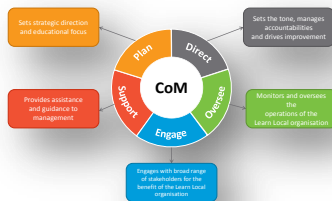

Message from the ACFE Board

There is much to celebrate in ACFE at the moment! Adult Learners' Week is coming up on 1-8 September and this coincides with our own Learn Local Awards announcements. It is really important to join in the fun of recognising achievements and progress. Spread the word about Adult Learners' Week and use their [website](#) for posters, templates and ideas.

Above L-R: Rowena Allen ACFE Board, Sian Lewis ACFE Executive Director and Tanya Smith NOUS Group Principal displaying the hardcopy version of *Improving Governance in the Learn Local Sector*. Graphic from the manual shown below.

As promised, the brand new *Improving Governance in the Learn Local Sector* manual has been launched, delivering another opportunity for organisational skill development in the Learn Local sector. I was thrilled to present a resource that can be used by every Learn Local organisation, and tailored to assist their professional development at the Committee or Board of Management level. 	Aug 9	ACFE Gippsland regional Council meeting
	Sept 1-8	Adult Learners Week

Regional Council elects its executive

Regional Council elected two of its members to the executive seats at its meeting in May. The positions became effective from 1 July. So it is with pleasure that we introduce Elizabeth Wright as the Chair, and Karen Fleischer as the Deputy Chair of the Gippsland Regional Council.

Liz has been a member of council since May 2008. She has governance experience in the community and adult education sector and work experience in local government, TAFE and community services. Liz is self employed as a consultant in the community sector and is involved with training and industry boards and is looking forward to meeting the challenges of the role.

Karen Fleischer was re-elected to the Deputy Chair position after a successful period of being Acting Chair for

six months. Karen also has been a member of council since 2008 and also has an insider's perspective of the Learn Local sector in her role as manager of Paynesville Neighbourhood Centre.

Both Liz and Karen have brought an energy and enthusiasm to the work ahead on council and we wish them every success.

Regional Council has nine members from all of the LGAs in Gippsland area. Contact the regional office if you would like more details.

Let's Celebrate!

Have you visited the Adult Learners' Week website yet?
<http://adultlearnersweek.org/>

This year's theme is "Digital literacy: Connecting and learning through technology". Gippslanders – you KNOW you are good at this!

Not sure what to do? Decorate your learning spaces, your website, your foyers with the free-to-download posters, and make use of the Powerpoint templates – all available on their 'resources' webpage.

'Whether it's online, face to face or shoulder to shoulder, there is a course, class or learning environment that suits your age and your learning style'

Do you know whose logo this is?
 Click it to find out...

Tyranny of distance? Not anymore!

The vast size of Gippsland has been a strong impetus for developing virtual conferencing skills all around the region. East Gippsland in particular, is really getting it together...

Network meetings are evolving with the use of digital technology. This picture was taken recently at the East Gippsland Network of Neighbourhood Houses meeting hosted by Lakes Entrance Neighbourhood House. Using the virtual conference tool

Blackboard Collaborate, three additional organisations were able to participate in the conversations and presentations in the meeting.

There are two good reasons to develop e-learning practises right now: 1) the **e-mentor project** has been extended [General Memo 2012/19](#) and 2) the **ACFE Equipment Grant** is supporting this style of delivery [General Memo 2012/20](#).
